

## Tween Me and my Typewriter

by Jeanelle Bryant

Never attempted to write so early in the morning, but it seems a good idea. You might try reading it in the cool of the day too, but not before you have had that cup of coffee, so soothing and awakening.

August 23 rolls around? A very important Texas voters when they go to the polls to vote on a proposal to amend the state constitution to make possible the levying of a five cent ad valorem tax, the proceeds of which would be used to purchase buildings, sites and equipment and to erect the buildings to meet the needs of our growing institutions of higher learning.

The proceeds of the five cents will be divided among 14 state colleges according to their enrollment. The total life of this tax is 30 years.

All friends of education are being urged to support this amendment.

At our house, we don't choose our breakfast cereal to suit our taste, but according to which has the most attractive paper dolls, pins, circus animals, etc. on the inside. The favorite daughter listens to the latest radio programs, reads the papers, and demands the cereal which contains the better prizes. Don't tell us advertising doesn't pay off.

Never have we heard so many complimentary remarks about an individual as we did a few days ago about a young Hamlin matron. The good words were not spoken in the presence of the recipient of the praise so we are sure they are sincere. She was described as an immaculate housekeeper, model mother, wonderful cook, outstanding church and social worker and one who keeps up with the times by reading the very best literature. What greater acclaim could be given anyone? Do you want to know of whom we are speaking? Alright, it is Mrs. W. L. Boyd Jr., mother of three sons, who has just as many problems to meet as any of us.

Our neighboring city of Anson really made national news by having the picture of the recent tornado featured as the picture of the week in Life magazine. Now, we don't wish to detract from their glory but we rather doubt that the citizens be so accustomed to such events they were not excited as Life writer would have one believe. We betcha if that twister had ever really headed toward town, not a person would have been found standing calmly viewing it. Anyhow, it is a good impression to give the nation. Everyone may be clamoring to move to such a section of these United

a cyclone excite them. They haven't lived here that long.

Ladies, don't be alarmed if your husband says he is going after a Hawaiian Wiggler, Hula Dancer or a jitterbug. It's no grounds for a divorce if he comes home with all three of them. 'Cause they are bass baits, or so they tell us.

There is a Bulgarian proverb to this effect, "A woman needs three husbands: one to support her, one to love her and one to beat her." Personally, we would not care for the third.

If you missed that Anson-Hamlin Lions Club softball game last Wednesday night, you failed to see some real players "show-off."

Rumors have it that P. D. Harkins had the idea that these new automobiles don't have to use gasoline. Or at least, he must have believed it since he drove from Shawnee, Oklahoma to Oklahoma City, on to El Reno and back almost to Haskell and he and his wife couldn't quite figure it out when the car began to spit and finally stop. When the truth finally dawned upon them, P. D. had to walk a half mile to obtain the required power juice.

We are told that tact is that which prevents a gray-haired old man with a wrinkled face from reminding a youthful-looking woman with the complexion of a rose that they were boy and girl together.

But what we are more interested in, is just what make of cosmetics the lady uses.

John Jenkins and Jimmy of Sundown visited relatives here last week.

James I. Steed—July 47

## Higher Than Year Ago Under OPA

Meat animal prices in Jones and other counties of the nation averaged about 50 per cent higher during the first half of 1947 than under price ceilings of a year earlier, the U. S. Department of Agriculture reports.

Prices for meat are said by the department to be 19 per cent higher than in the last half of 1946. Cullines, it will be recalled, were removed late in October, 1946.

Meat production in Jones, Fisher, Stonewall, Kent and other counties—to narrow the picture down to sectors—for the first half of 1947 about equalled the first half of last year and was the third largest on record for the six-month period.

U. S. Department of Agriculture officials predict more beef and veal will be produced this summer than last. Hog slaughter in Scurry County, for instance, is expected to decline during the rest of the summer but will increase during the fall months. A number of county people, for example, have frozen food locker boxes this summer.

Local buyers and close livestock market observers say hog prices will continue high until marketing increases in the fall.

Prices here of grass-fed cattle, on the other hand, are due to decline by September. It is stated a 10 to 15 per cent price drop from spring peak to the low of September and October is common.

Mr. and Mrs. Bobby Barrow of Sundown visited here last week.

## By Home Agent

It isn't a bit too early, says Miss Corretta Allen, Jones county home demonstration agent, to start thinking about planting that fall garden. Now, while supplies and selection of garden materials are good, the smart gradener will begin to plan and lay in supplies of seed, inoculating dust, seed testing materials, insecticides and fertilizers. Planning what to plant, when and how much is just another wise step in modern vegetable raising, Miss Nabors declares.

Here are a few things to do in the future fall garden site that will start things off right. "Shave" the plot where the garden will go. Add well-rotted barnyard fertilizer, applied broadcast, and plow or spade it in near the top of the ground. Keep the site well pulverized and watered if it needs moisture. Start

## News Briefs From Stonewall County

Future Homemakers chapter of Aspermont enjoyed a swimming party at Hamlin lake. Stonewall County veterans will be glad to learn that a VA representative will be in Aspermont on the 11th, 13th and 15th Thursday of each month at the office of the County Judge H. H. Shadle. Deposits are over the \$1,500,000 at the First National Bank of Aspermont with total assets of \$1,837,891.09.

Louis Stip of Big Spring returned home yesterday after spending several days here with Robert Angel. His parents, Mr. and Mrs. P. L. Shipp, came for him and had dinner with the Angels Monday evening.

## MEDICAL RESEARCH IS YOURS Through YOUR DRUGGIST—

Your pharmacist shares in the victories won in the field of disease prevention and control, for first of all, he is a scientist, hopeful of even greater achievements in his chosen life's work. The progress made all over the world in the field of medicine is his progress—its benefits are his share to you. Recent discoveries are available to you NOW through your druggist. Call on him.

## Baptist Young Men's Class Enjoys Picnic

Members of the Young Men's Bible Class of the First Baptist Church entertained their wives at a picnic Tuesday evening at the bank camp on the lake.

The teacher, W. C. (Ted) Russell, and several of the members prepared the delicious picnic supper and served at a table in the open. Weiners, pickles, onions, fritos, punch and iced watermelon were enjoyed by about 45.

Volleyball was played during the evening.

Those attending were the following couples: L. T. Stubbs and son, Jim Howard King, Stanley Carmichael, Teddy Russell, Charles Prather, and son, Herman Treadwell, Lester Morton, Bill Shira, Paul Gentry, Lesley Shelburne and sons, Onis Crawford, Bonnie Smith, J. C. Turner, L. J. Cunningham and children, Vernon Shearer and son, B. Current and sons, Ray Johnson, Donald Bryant, Ted Russell, Joyce Murphey and Arlie Cassle.

## Two-in-One Apron Handy for Odd Jobs

One of the latest clothing developments off the designing board, Mrs. Hamlin Housewife, is what may be called a two-in-one apron, which is made to give your knees protection when doing kneeling jobs.

Such an apron, reports Hannah Nabors, Jones County home demonstration agent, will also give the housewife a spacious pocket in which one can carry anything from a packet of seed on up to a mess of turnip greens.

U. S. Department of Agriculture clothing specialists have put their okay on this apron as one that will be a real convenience to you in doing kneeling jobs, indoors or out.

The apron has a big pocket, which is buttoned instead of sewed on. When you're ready to do a kneeling job, you simply unbutton the big pocket and turn it inside out and over the knees. Then you're protected from dirt and dampness. When the job is finished, you fold up the pocket, button it, and you have a handy place to tuck away gloves, seed packets, markers or any other small things that may get lost.

If you try making this apron, the clothing specialists suggest you use a sturdy cotton material, and line the pocket with a plastic material that is both washable and waterproof. Then when you turn the pocket outward to kneel on, the plastic material will protect your knees from wet ground.

## Pick Tomatoes Early To Preserve Quality

Early harvesting of tomatoes maturing in over 50 Hamlin area home gardens is the best insurance against sun blister, reports Miss Hannah Nabors, county home demonstration agent.

Many gardeners, Miss Nabors says, are harvesting sun blistered, low quality tomatoes now because they are leaving the vegetables on the vine to ripen. Early harvesting is a good practice with many other fruits, especially peaches, the county home demonstration agent declares. Peaches attract birds when they begin to color, and ripening in the home can prevent a great deal of damage from birds.

## Comrades Class Have A Picnic Monday Evening

Mrs. Earle Misener, Mrs. C. B. Phelps, Mrs. Ray Maberry, Mrs. Pat Marlowe and Mrs. Lewis Madden were hostesses to the Comrades Class of the First Methodist Church at the Toler Lake Cabin Monday evening.

Mrs. Ray Maberry, president, presided at the business meeting, which included reports from the membership and absentee committees.

The roll call included 43 members, besides Mrs. E. M. Wilson, teacher, and Mrs. Holly Toler, assistant teacher. Mrs. J. F. Taylor was a guest.

A refreshment plate consisting of cheese-pimento and chicken salad sandwiches, potato chips, olives and cokes were served.

## BOYCE HOUSE— "Gives You Texas"

While in south Texas recently I was told that an argument arose at a ladies bridge club as to whether when after one cuts the cards before they are dealt, the one making the cut should put the two stacks together. So (according to the story) they decided to write a famous expert of bridge. He replied that, while there was no actual rule, it was courtesy for the one cutting the cards to put the two stacks together.

With that, the ladies thought the matter was closed. But not quite. At the end of the month here came a bill for \$30 from the expert. The club members consulted an attorney in their town to learn if they had to pay the \$30 and he advised them they did as the man they had consulted was an expert in the field of bridge rules and such advice was the way he earned his living. So they paid him the \$30.

Then at the end of the month came a bill to the club for \$10 from the lawyer!

Which reminds me of Mr. Goldberg. His friend, an attorney, said, "You look worried."

"Yes," he explained, "I have a chance to put over a big deal but there is an obstacle." He proceeded to describe the situation, whereupon the lawyer told him how the difficulty could be surmounted. Goldberg made the deal with a profit of several thousand dollars. Soon after, he received a bill from the attorney for \$500 for professional advice. The bill was paid.

A week or so later, the business man was walking along when he met the lawyer, and said, "It's a fine day, isn't it?" Then before the attorney could reply, Mr. Goldberg hastened to add, "Remember I'm telling you, not asking you."

## Screwball Designations.

Each of the two screwball cavalry rookies was given a horse.

"How are we going to tell them apart?" asked one.

"I'll cut off my horse's mane," suggested the second. So they trimmed one horse's mane, but it soon grew out again. The first screwball then cropped his horse's tail, but it, too soon grew out.

"Let's measure the horses," suggested the first screwball. Sure enough, it worked. The white horse was two inches taller than the black horse.

## Literal Translation.

"Name?" queried the immigration official.

"Sneeze," replied the Chinese proudly.

The official looked hard at him. "Is that your Chinese name?" he asked.

"No, Melican name," said the Oriental blandly.

"Then let's have your native name."

"Ah Choo."

## County Agent Urges Farmers to Employ Electricians to Wire

Stanley urges farmers of Jones County to get competent electricians to make any changes desired for the summer months.

The county agent regards, for example, REA electricity as one of the finest things to make rural life richer, but he warns against faulty installations and "handy man" repairs.

As a means of safeguarding farm buildings, the county agent cautions against home-made extensions in barns or other buildings. A faulty installation, Stanley declares, can easily set a farm structure on fire.

"Your best and safest way to enjoy REA facilities is to have a responsible electrician to inspect all wiring, motors and other electrical appliances for possible fire hazards," Fowler says.

# Final Rites for Mrs. Castleberry Tuesday Afternoon

Final rites for Mrs. M. H. Castleberry, 53, who died Monday in Abilene, were held Tuesday afternoon at the Hamlin Calvary Baptist Church with the pastor, Elder W. E. Nunn, assisted by Elder E. D. Keller and Elder G. A. Nicholson.

Izora Kathleen Jones was born July 14, 1894. She was married to M. H. Castleberry November 20, 1910. She united with the Neinda Baptist Church August 16, 1906, and her membership has been with the Hamlin Calvary Baptist Church for the past several years.

Mrs. Castleberry died at the home of a daughter, Mrs. H. A. Martin, at Abilene after a lingering illness. She died on her 53rd birthday.

Burial was in Neinda Cemetery under the direction of Barrow Funeral Home.

Her friends and loved ones say "The Christian influence of this great woman will live on in the lives of all who knew her. Even in her

intense suffering, she was concerned about the welfare of others, rather than herself. Her unselfish spirit and undaunting faith was commendable above words."

She is survived by the husband, two daughters, Mrs. Martin of Abilene and Mrs. Herman Hildebrook of Abilene; two sisters, Mrs. Bessie Boyd of Sweetwater and Mrs. Pat Collins of Hamlin; two brothers, Tom and Ben Jones, both of Hamlin; and six grandchildren.

LOVELY and Useful gifts—values up to \$5—at The Book Shop, Saturday for \$1. 1c

Anne Genell Crawford has returned home after a visit with Mr. and Mrs. Walter Sneed and Dottie in Coleman. The Sneys are former Hamlin residents.

A bog is just another name for a marsh.

## CLOSED SHOP OUTLAWED IN 16 STATES

Houston, Texas.—The shaded states in the above map have either submitted constitutional amendments or enacted statutes outlawing the closed shop. Sixteen, or one-third of all the states, have done this. They are Arizona, Arkansas, Florida, Georgia, Iowa, Kansas, Nevada, New Mexico, North Carolina, North Dakota, Oklahoma, Tennessee, Texas and Virginia. The Taft-Hartley Act passed by Congress contained a provision outlawing the

closed shop, regardless of union or non-union affiliation, as a condition of employment in this fast growing industrial city. The Secretary-Treasurer of the Christian American, Inc., with headquarters here, directed the campaign that resulted in its passage as an amendment to the Constitution of Arkansas and enlisted the support of the Attorney General of Florida in its enactment there. The hundred labor papers of the nation recently voted Mr. Muse to be "Public Enemy No. 1" of the movement to organize the unorganized; he has been investigated by two State Legislatures and castigated by several others and a bill has been introduced in the Texas Legislature to revoke the charter of the Christian American which was granted in November 1936. The Chairman of the Communist Party in Texas recently filed suit against Mr. Muse for \$15,000.00, claiming that her reputation was damaged when Muse printed her picture along with 37 members of the Texas House of Representatives who voted against the Right to Work measure. The suit was withdrawn when Muse's attorney, Bernard A. Golding, announced he was ready to go to trial. Ultimate objective of the Christian American group is an Amendment to the Constitution of the United States guaranteeing every person the right to work regardless of union status. A recent nation-wide survey shows that Texas has the most complete and effective set of labor regulatory measures of any state in the Union. . . . Directory of State Lawmakers.

## August 1 Final Date for Transfer Of All Students

All parents or guardians who have children they desire to transfer from the school district to another must do so on or before the first day of August. Application for transfer may be made in the office of the county superintendent, Everett Deaton at Abilene.

For the information of patrons, portions of the transfer law are quoted below:

"Article 2696.—Transfer.—Any child lawfully enrolled in any district or independent district, may by order of the county superintendent, be transferred to the enrollment of any other district or independent district in the same county upon a written application of the parent or guardian or person having lawful control of such child, filed with the county superintendent; provided that any district or independent district or independent district be-

ing dissatisfied with any transfers made by the county superintendent may appeal from such action to the county board of trustees of said county who shall have the right to annul and cancel the transfer allowed by the county superintendent.

"The applicant shall state in said application that it is his bonafide intention to send said child to the school to which the transfer is asked.

"Upon the certification of the transfer of any child, from one district to another district, by the county superintendent of the county in which said child resides at the time of the transfer, the State Department of Education shall authorize the State Treasurer to pay over directly the per capita apportionment, in independent districts of 500 or more scholastic population, to the district to which such child is transferred; and in all other districts, to county superintendent, to be paid by him to the respective districts to which such children are transferred; provided, no transfer shall be made after August 1. (Acts 1935, 44th Legis-

## Grasshoppers in State Still Show Slight Damage

Because Jones and Fisher County farmers are worried about grasshopper infestations and slight outbreaks of "rag worms," the following report from the Texas A. & M. College on the cotton insect situation over the state will prove of timely interest:

Boll weevils remain in low numbers in the lower Rio Grande Valley and Coastal Bend area, but are causing damage in Victoria, Jackson and Wharton Counties of the Upper Coastal area and in some fields of Madison County in the Trinity River bottom of East Texas. Several groups of Scutry and Borden County have recently visited the Rio Grande Valley.

Flea hoppers have increased in most of the coastal counties during the week. These insects are transferring from horse-mint to cotton. A still further increase may be expected as the horse-mint matures and ceases to be attractive to the flea hopper.

## Unit Trainees Gain Weight and Height

In a news release from the Army this week Hamlin people are informed that with the Army routine of good food, regular hours and exercise has resulted in an average weight gain of six pounds per man in the last 12 weeks at the Universal Military Training Experimental Unit at Fort Knox, Kentucky.

Forty per cent of the trainees show a chest expansion of one inch or more while an additional 15 per cent gained one half to one inch. Twenty per cent of the trainees had grown half an inch or more in height in the 12 week period.

## BEAUTY EFFICIENCY Moderately Priced

These are the three qualities which speak for themselves in Dr. Fred R. Baker's spectacle wear.

## SEE BAKER And SEE BETTER

AT Hamlin Hotel, Wed., July 23rd

Advanced dates: August 20, September 17 and October 15.

## Grasshoppers in State Still Show Slight Damage

Because Jones and Fisher County farmers are worried about grasshopper infestations and slight outbreaks of "rag worms," the following report from the Texas A. & M. College on the cotton insect situation over the state will prove of timely interest:

Boll weevils remain in low numbers in the lower Rio Grande Valley and Coastal Bend area, but are causing damage in Victoria, Jackson and Wharton Counties of the Upper Coastal area and in some fields of Madison County in the Trinity River bottom of East Texas. Several groups of Scutry and Borden County have recently visited the Rio Grande Valley.

Flea hoppers have increased in most of the coastal counties during the week. These insects are transferring from horse-mint to cotton. A still further increase may be expected as the horse-mint matures and ceases to be attractive to the flea hopper.

No leafworms have been reported to date.

Lower Rio Grande Valley—Early planted cotton is fruiting heavily and cotton insect infestations are generally light. Of 41 fields inspected only seven had weevil infestations above 10 per cent. Five were in Cameron and two in Starr County.

Coastal Bend Area—Weevil infestations averaged four per cent in Kleberg, Duval, Nueces, San Patricio and Jim Wells Counties. The numbers of flea hoppers found per 100 terminals in these counties were: Kleberg five, Duval 21, Nueces nine, San Patricio five, and Jim Wells 20.

Upper Coastal Area—Weevil infestations averaged 19 per cent in 15 fields of Victoria, Jackson and Wharton Counties. Two fields in Victoria were between 25 and 50 per cent, and one field in Wharton was above 50 per cent. Flea hoppers increased during the week from an average of 13 per 100 terminals to 20 with a high increase noted in O'Houn County. It is recommended that growers in this area inspect their fields often and that heavily infested fields be dusted as soon as possible with five per cent DDT-sulphur.

Central Texas—Grasshoppers continue abundant in some of the river bottom fields. Weevils remain low. Flea hoppers at present are in small numbers but are slowly increasing in Burleson and McLennan Counties.

South Plains Area—Lubber grasshoppers are numerous and moving into cultivated crops in Cochran, Tockley, Howard, Lubbock and Terry Counties.

## POT SHOTS FROM MCCAMLEY Job at Colorado, Stayed for 21 Years

John R. Baze, former Hamlin newspaper man and employee of The Colorado Record at Colorado City, is celebrating his fiftieth year as a printer.

Baze started in the newspaper business at 50 cents a week in Snyder, working after school hours at The Coming West, published by Colonel Dick Lively. Baze had duties of cleaning out the shop and running the ink roller on the hand-set type in the old Washington press here.

After graduation from high school Baze went to Knox City on the first

train that rolled into that new townsite, worked on the Knox City Herald and pitched on the town baseball team. Less than a year later he went to work for I. J. Pierce and George Powers, owners of The Hamlin Herald—but was sent by them to Shafter's Lake in Andrews county, a town that had a newspaper in 1907, but now a ghost village.

Baze was next a printer at Fluvanna, but in 1908 returned to Snyder and published The Coming West himself under lease for two years. He went to Midland in 1910, was with the Roswell, New Mexico, newspaper until 1920—during which time he served as manager and superintendent of the Odd Fellows Orphans Home at Roswell.

After a bout with typhoid fever he became editor of the Dalhart Texan.

tal last week, was seriously ill at our last report.

Mr. Beech Jones and Wayne Webb

A **STARTER** at 50 cents a week on The Coming West in Snyder, John Baze, associated with The Colorado Record the past 21 years, is celebrating his fiftieth year as a printer. Baze was a printer at Fluvanna, and from 1908 until 1910 ran The Coming West under lease at Snyder. He was connected for some time with The Hamlin Herald. He has through the years been associated with newspapers in West Texas and in New Mexico.

and in 1922 editor of the Raton News at Raton, New Mexico.

Birth of John R. Baze, W. T. Baze, took him back to Snyder in 1925 and he ran a shop here for a year. In 1926 he joined The Colorado Record for a two-week job which has stretched into 21 years.

John insists he is a printer and would rather set a story in type than write it, but he now does all the writing for The Record except the society notes—and he has been known to write society stories.

Baze plays a fair game of left-handed golf, likes to take his wife fishing, umpires softball games and serves Mitchell County Democrats as county chairman.

John Baze was born at old Fort Concho, where his father, the late W. T. Baze, once served as a government hunter.

James Angel of Fort Worth arrived Tuesday to spend several days with his cousin, Robert Angel.

## Finest Fruits for Canning at Home

It's good news for all the Hamlin home canners that peaches are again on the market.

Miss Loretta Allen, the county home demonstration agent, states peaches are to can in the water bath canner and one of the best fruits for home canning.

For canning, choose peaches that are sound, firm and table ripe.

Look beyond the pink blush, if the peach has one, to see that the ground color is yellow or white—no unripe greenish tint. A bushel of peaches yields about 18 to 24 home canned quarts.

Directions for cold packing peaches in preparation for processing in a water bath canner are given by Miss Nabors as follows (peaches packed raw hold their shape better and look prettier in the jar and on the table):

Wash peaches. Dip in boiling water, then quickly in cold water, to loosen skins. Remove skins. Halve and pit fruit. Slice if desired. To prevent darkening during preparation, drop peaches into water containing two tablespoons each of salt and vinegar per gallon. Drain and pack cold into jars or cans to one-half of top. Add boiling syrup, leaving one to two inches in container. Steam containers—pints and No. 2 tin cans, 10 minutes; quarts and No. 3 tin cans, 15 minutes. Remove from canner, repack if necessary. Seal and process in boiling water bath 15 minutes. Remove from canner, complete seals on jars if closures are not of self-sealing type. Cool jars out of a draft. Cool tin cans in cold water. Label and store in cool place.

## News Briefs From Fisher County

Production Credit Association will hold a meeting of stockholders in Sweetwater on July 22. Many Fisher County farmers are members of the PCA. . . In a consolidation election Pledger voted to consolidate with Roby, the vote being 44-0 at Roby and 14-0 at Pledger. . . Flea hoppers are being reported in cotton fields, especially in southern and eastern parts of the county. . . The Fisher County vocational school has added its 11th teacher. . . The FSA office in Roby has closed and representatives can be seen there only on Monday. Other days county farmers must go to Sweetwater. . . A Lions Club has been organized in Rotan with 40 charter members. Robert Morris is president. . . Herbert Love is new minister of the Church of Christ in Rotan, coming from the North Loop Church in El Paso. . . Fisher County banks reveal a prosperous condition with the First National of Rotan with assets and liabilities of \$2,693,595.87 and the Citizens State Bank of Roby at \$1,146,034.36.

Mrs. Walter Roe and children, Barney, Gail, Jo Ann and Danny, of Winslow, Arizona, have been visiting her sister, Mrs. L. R. Faulkenberry, and brother, Bonnie Bingham. Mrs. Roe and children have gone on to Comanche to visit her parents, Mr. and Mrs. Dan Bingham.

## Baptist Girls To Camp Leuders

Five intermediate GA's and YWA's from the First Baptist Church went to Camp Leuders Monday to the encampment under the sponsorship of Mrs. I. R. Huchingson.

Those going are Misses Betty Jean Hines, Donna Gayle Miller, Betty Decker, Dorothy Faye Altum, Eleanor Huchingson and Mrs. Huchingson.

## Bubble Gum Not Cause Of Junior's "Tummy" Ache, Says Article

Bubble gum isn't to blame for Junior's upset stomach or for any other of his pains, except maybe aching jaws, an Associated Press article said today, quoting the Food and Drug Administration.

The results of tests "do not warrant any conclusion that bubble gum contains toxic ingredients," the agency said.

The bubble gum tests followed reports from some areas that the children were possibly being made by chewing it. This agency found incorrect. In fact it found bubble gum to be no more harmful than pure paraffin wax.

## Income Tax Revenue Above 1946 in Texas

People of Hamlin and others in this area who had dug out the old pocketbook will be interested to learn federal internal revenue collections in Texas continue to run 20 per cent above the levels recorded last year.

So reports the University of Texas

Bureau of Business Research, which says collections in May reached \$62,651,199—bettering the May, 1946, total by 20 per cent.

## Latest Edition Texas Almanac Off the Press

A record of wartime and postwar economic, political and social development in Texas is portrayed in the half million or more facts presented in the 1947-48 edition of the Texas Almanac which has just been published by the Dallas Morning News, and which is now on sale at The Herald office.

Industrial development in the period, 1940-46, inclusive, was greater than in all previous Texas history. As measured by number of employee there was a net gain of more than 104 per cent even after the closing of some of the large war plants. As measured by value of products the gain was more than 200 per cent. State and national bank assets were up 200 per cent and other data indicate a general advance of 100-200 per cent in the state's industry, commerce and finance.

Momentous in this development has been a net increase in the state's population. There has been a large shifting from rural to urban residence and vocation, with an accompanying rapid decline in farm tenancy. Big increases in average farm acreages and high degree of farm mechanization are recorded. The large industrial expansion, data, presented by the Texas Almanac show, solved an accumulative problem of 15 years of declining cotton acreage by giving employment to displaced tenants and greatly increasing the average individual income of both rural and urban population.

Features of the new Texas Almanac include complete text of the State Constitution with historical notations on all present and past amendments. The book presents an interesting account of Texas activities in World War II, revised population estimates for towns and villages. There is a complete summary of the new agricultural census and extensive information on the cattle industry, which now brings greater cash income than Texas crops, including a history on the development of ranching.

There are extensive reviews of postwar oil, gas and other mineral production, manufacturing, communication and transportation, including rail, highway, aviation and shipping. An extensive catalogue of all officials, detail of state finances, including statistics of educational support, eleemosynary institutions and public welfare, including old-age and other pensions.

The 608-page book, containing approximately 750,000 words and statistical word-equivalents, covers several thousand separate subjects, including such diversity as rainfall data, a forestry survey of East Texas, flora and fauna, religious bodies, recreational resources and state national parks and forests, libraries, penitentiary system and complete political calendar for 1948. There are also the usual revised lists including all county officials, officials of the various civic and commercial organizations, superintendents of the independent school districts, detailed election returns and revised, up-to-date articles on the 254 counties, accompanied by revised individual county maps. The volume also has the usual large folded highway and railroad maps revised to March 1, 1947.

## James I. Steed—July 47 News Briers From Haskell County

Paint Creek voters on Saturday approved 29 to 10 a \$15,000 bond issue and a tax rate not to exceed \$1.50. Proceeds of the bond issue will be used for construction, repair and equipment of school buildings. Wheat in the Weinhart area was best in years, averaging 20 bushels per acre with over 100 cars shipped. Plans are being made for a \$50,000 city-owned sewer system for Rochester, with 200 prospective users already signed up. Telephone lines are also to be moved from the streets to the alleys. Haskell National Bank has bought assets and properties of the F. & M. State Bank of that city, with business of both banks to be conducted at location of the former. Total assets of the two banks are \$3,761,076.27 with the deposits standing at \$3,603,850.04. A. C. Peirson is president of the combined bank and all employees of the F. & M. Bank were retained by the new institution. A. M. Turner, president of the F. & M. Bank will remain in an executive capacity. Turner is known by many Hamlin area folks as he formerly worked at the old Bank of McCaulley, where he started out sweeping floors and by cleaning spittoons. His wife, the former Maxine Tate, was visiting the Ezell family here when he met, wooed and married her in 1920. . . . Rochester Presbyterians and Methodists for the third consecutive year, are planning a union revival. . . . Rochester receives its water from deep wells and anticipates no difficulties with its water supply. . . . A. F. Thurman of Electra former minister of Haskell Church of Christ and mayor of that city will return there on July 20 to open a 12-day revival service. . . . A softball tournament will open in Haskell on July 22. . . . 4-H Club leaders are planning for a rally and style show to begin in Haskell on Saturday, July 19. . . . A revival meeting opened at Lindsey Chapel on Friday, July 11. . . . Haskell singing convention met at the Plainview Baptist Church on Sunday. . . . Haskell County veterans will be glad to learn that a VA contact representative will visit Haskell on the afternoon of each first, third and fifth Thursdays on each month.

### At Kelly Field.

Pvt. Archie B. Liles who entered the Army Air Forces in June is now in training at Kelly Field, San Antonio. Liles enlisted when the special caravan was here late last month.

## Cars in 6 Months Scheduled By K-F

Output of 90,000 automobiles by Kaiser-Frazer Corporation during the last half of 1947—barring basic material supply shortages—was forecast this week by Edgar F. Kaiser, vice president and general manager, in mid-year resumption of the corporation's production progress. A. G. Jimmy Irwin, of Irwin Motor Company, local dealer.

Mr. Kaiser, who announced that the K-F produced a new monthly high of 12,039 cars in June, said that the company earned a substantial profit in the quarter ended June 30. Sales approximated \$22,000,000 as compared with \$11,700,000 for the entire year of 1946, he said.

The company's June output which represented a 16 per cent increase over the May figure of 10,387, was

Production of the Kaisers, Frazer and Frazer Manhattan automobiles totaled 49,203 in the first six months of this year, Mr. Kaiser said. Scheduling of 90,000 units for the balance of the year has been made possible by increased supplies of the raw materials and engines obtained through subsidiary companies which have been acquired by K-F, he explained.

He reported that the company this month completed stocking of service parts among its 146 distribution centers throughout the United States to insure prompt servicing of the more than 56,000 Kaisers, Frazers and Manhattans which are now in the hands of private owners.

retire as soon as Mr. Hennington assumes his new duties. Mrs. Rector has been postmaster for the past 26 years and has farming interests in this community. She will continue to live in her home in town of McCaulley.

The George Darden family spent last week in the home of his parents, Mr. and Mrs. M. A. Darden at Girard.

Mr. and Mrs. Luther Maberry and daughters have returned to their home after several days visit with relatives in Arlington.

Speaking of revival meetings: Don't you remember way back when the old "brush arbor" meetings brought folks for miles and miles. How the mas and pas fetched their bed quilts along for the kids to bed down on during the long winded sermons back in the horse and buggy days? Yes, folks got religion those days—there were no "high pitched solos" that folks couldn't savvy, no continual preaching on sending money to China, and folks didn't attend the churches to see what the other fellow was wearing, a man in overalls, the women in calico was just as welcome as the folks in stiff-shirts and gingham gowns and the only disturbance was maybe a yell from a cowboy in the far distance of a mournful howl from a coyote wolf on prairie. Anyway, folks got religion and stayed with it. Nowadays, too many folks go to church on Sunday and study and scheme how to beat their fellow man in a horse trade on Monday. This Pot-Shot doesn't pertain to all folks but by far too many.

James York of Clyde who was killed July 9 when his car overturned near Eastland was a nephew by marriage of Mrs. B. F. Short of McCaulley. Burial was in the Cedar Hill Cemetery near Abilene. ## Stamford PCA to Hold Annual Meet This Next Week

A large attendance from among the 1,609 members of the Stamford Production Credit Association is expected at the thirteenth annual stockholders meeting to be held in Stamford on July 25, beginning at 10:00 a. m. As in the past, registration will begin at 10:00 a. m. at the bunkhouse on the Texas Cowboy Reunion grounds.

Following a chuck wagon dinner, 11:30 to 1:00 o'clock, a brief business session will be held in the grandstand of the arena, also on the Texas Cowboy Reunion grounds. In this business session will be heard reports from the board of directors and the secretary-treasurer, and a discussion of "sound credit." Also one director is to be elected.

The next event on the program will be a matched calf roping contest between Sammy Baugh of Rotan and Fred Albright of Benjamin, both nationally known calf ropers. Baugh is a member of the association, having holdings in Stonewall County. This feature, beginning at 2:30 p. m., is open to the general public. A closing feature a large number of gifts will be awarded to PCA members and their wives.

SECTION II—Four Pages

## Formal Opening of Jay's Saturday

### It's Still Okay To Use Your Thumb--Provided

Contrary to inaccurate reports, the new uniform traffic code does not prohibit hitchhiking, George Clarke, managing director of the Texas Safety Association, said this week in Austin.

The code, which goes into effect September 5, was supported by the Texas Safety Association and 58 state-wide cooperating groups in the recent session of the Legislature as a safety measure.

The two-line sub-section of the traffic code pertaining to hitchhikers reads:

"No person shall stand in a roadway for the purpose of soliciting a ride from the driver of any vehicle." A roadway is defined in the bill as "that portion of the highway improved, designed or ordinarily used for vehicular travel."

The bill defines a highway as "the entire width between the boundary lines of every way publicly maintained when any part thereof is open to the use of the public for purposes of vehicular travel."

Clarke emphasized that the bill

does not forbid any person to stand on the shoulder of the road for the purpose of soliciting a ride from a driver.

He said that it is a prevalent practice in the state for hitchhikers to stand on the concrete or corrugated surface of the road, and that this action constitutes a definite hazard to the hitchhiker as well as to traffic.

Penalties for violations of the act range from \$1 to \$200.

### Postage Rates Are Made Permanent

Postmaster Perry Sparks has recently been notified that the three-cent letter rate and all other postal rates have been made permanent by a recent act of Congress.

The notice follows:

"Under House point resolution of 80th Congress approved by the President on June 30, 1947, the three-cent letter rate and all other postage rates and fees will continue thereafter on permanent basis."

These rates have been continued each year, by renewal, since the so called three-cent letter rate went into effect in 1932, it was stated.

A Georgia woman, age 96 says she never saw a auto. Perhaps that explains her age.

National Farm Safety Week  
July 20-26, 1947

### Free Barbecue Saturday Main Part of Program

#### R. E. Dickson to Speak to Group

Jay Implement Company, International Harvester dealers for this territory, will formally open their modern new building Saturday. The attractive, large, white building, marked by a striking red pylon at the entrance, is called a "Base of Operations" by IHC and is completely equipped to care for most needs of the modern, mechanized farmer.

A free barbecue luncheon at 12:00 o'clock noon with all the trimmings is being prepared by the genial owner, Eddie Jay, one of Hamlin's most successful young business men. In making his announcement, Mr. Jay said: "I want it understood that every farmer and rancher, every man woman and boy in Hamlin area who wants to come is cordially invited to be there. We'll have enough barbecue, etc. for everyone, and we want them to come and look over our new building. We're really proud of it."

R. E. Dickson, superintendent of the Texas Agricultural Experiment Station at Spur, will be the guest speaker for the occasion. Mr. Dickson will make a short talk on matters that are of vital interest to farmers and ranchers of this area. Starting with the noon barbecue,

Mr. Jay has planned a program that will be over some time after 2:00 o'clock, and the rest of the time visitors will be welcome to look over the building and its facilities.

Entertainment will be provided by "Moon" Mullins' string band of Abilene. Regular radio performers, they will make their regular broadcast over KXOX from 1:00 to 1:30 p. m. by remote control from the implement company building. As far as is known this is the first broadcast to be made here.

Mr. Jay said this week that plans call for the huge shop to be cleared in order that visitors may be served in the shade.

This new building, which has been occupied for several months, is large and airy. The repair shop is without a doubt one of the best equipped in West Texas, according to IHC officials. Modern tools, including lathes, boring bars, grinding machines and hundreds of hand tools, make it a "mechanic's paradise."

Lovers of good machinery and well equipped shops, regardless of their trade, will enjoy looking over this department. Wayne Hemphill is shop foreman, and his assistants

are Louie Jones, Albert Lott and Jim Ware.

Bill Shira is parts department foreman and his assistant is Garland Preston.

All employees of the company will be on hand for the gala opening and will enjoy showing guests around. Mr. Jay anticipates several thousand guests during the day.

Chicago offices of International Harvester will be represented here by several high officials. Those expected to be here are: A. J. Peterson, manager, general lines sales, Chicago; B. M. Kaiser, manager, motor truck sales, Chicago; A. M. Buzzard, assistant manager, truck sales, Chicago; R. D. Kingdon, manager, general line sales for Southwestern District; J. W. Simpson, manager of new building program, general office, Chicago.

A Cub in Size...  
but a BEAR for Work!

and Now—

INTERNATIONAL HARVESTER PRESENTS

## THE Farmall Cub!

- For all operations on farms of 40 crop acres or less—and truck gardens.
- For special operations on truck farms.
- For large farms that need an extra tractor.

That's the Farmall Cub, the first tractor in history that's built right and priced right for a great new group of tractor owners.

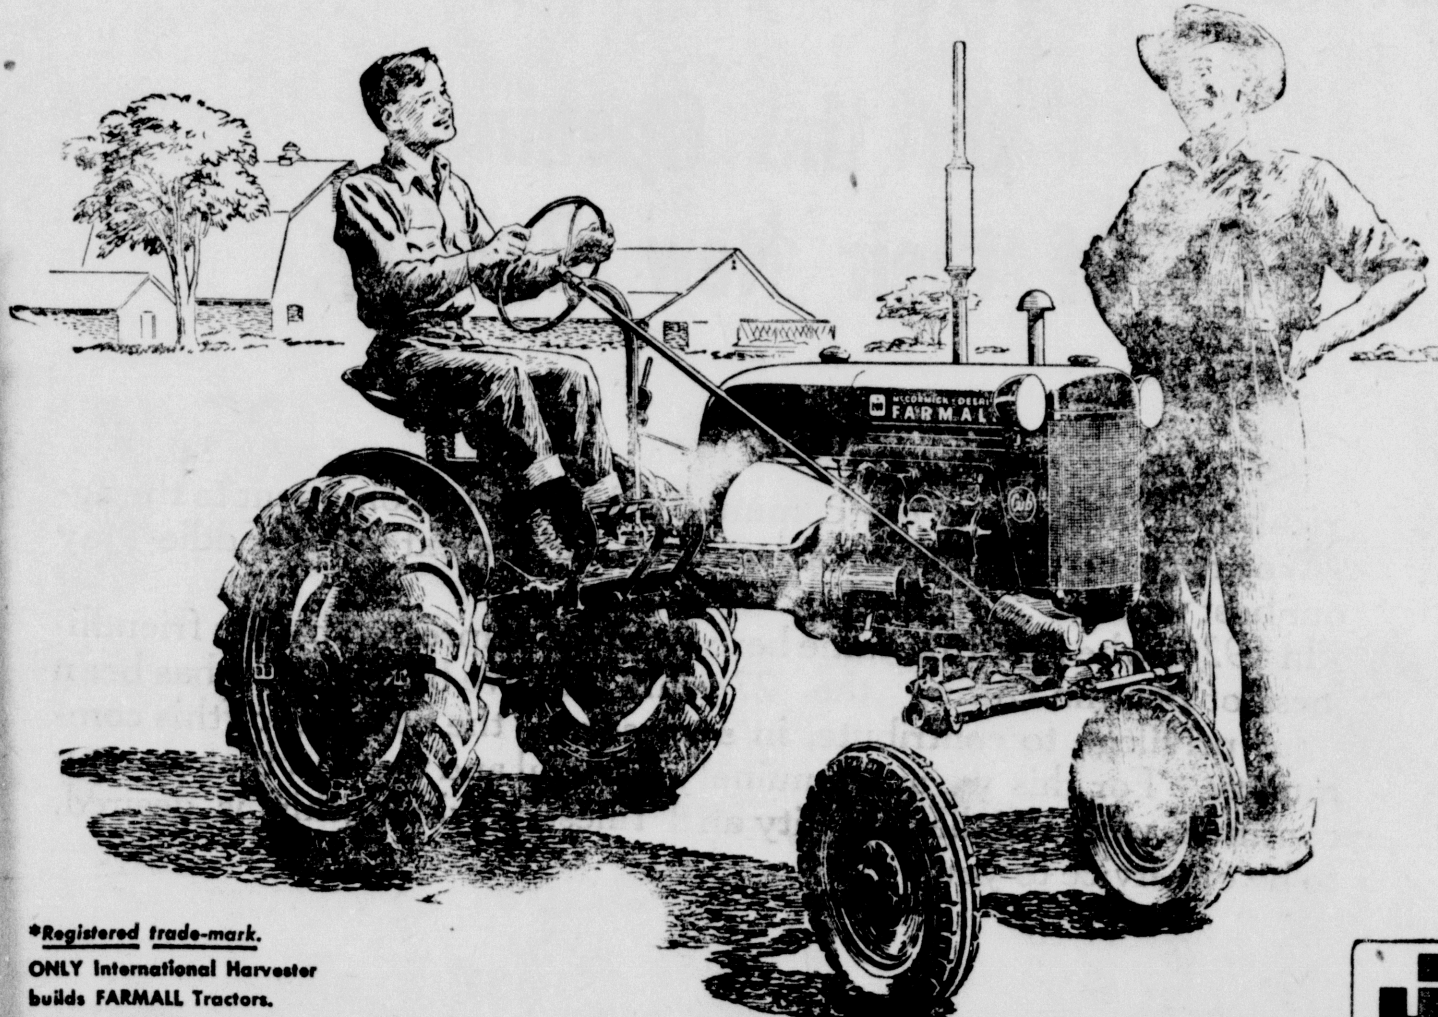

The Cub is the newest member of the famous FARMALL FAMILY. It brings the advantages of the FARMALL\* SYSTEM OF FARMING to the small, family farm.

It's a Cub in size, but "a BEAR for work." You get big-

Farmall quality and design, plus scaled-down, small-tractor economy. And there is a full line of matched, quick-change, easy-to-control implements.

The smooth-running 4-cylinder engine develops approximately 9 1/4 h.p. on the belt. It uses considerably less than a gallon of gasoline an hour. There's a comfortable, roomy seat... ample crop clearance under the chassis... and "Culti-Vision" to give a clear, unobstructed view of your work.

Fit the Cub into your farming operations. We'll have one on hand soon, so you can climb in the seat and drive it. You'll find it handles as easily as your car.

\*Registered trade-mark.  
ONLY International Harvester  
builds FARMALL Tractors.

## HOW TO USE THE TELEPHONE SKILLFULLY

Even the simplest things—and telephoning is one of them—are easier and more satisfactory for the person who knows the best way to do them and then DOES them that way.

If you know the right answers to these four questions about using the telephone, you'll have a key to better telephone service.

**Question:** What is the best way to answer the telephone?

**Answer:** It's usually best to identify yourself at once. "Mr. Hopkins speaking" helps start things off right—especially if the caller may not recognize your voice. It's much better than "Hello."

**Question:** Can the person I'm calling hear me better if I talk loudly?

**Answer:** It's better to speak in a normal voice—clearly and distinctly—with your lips about a half inch from the transmitter.

**Question:** Can I get the operator's attention faster by "jiggling" the receiver hook up and down rapidly?

**Answer:** No! When you move the hook too fast, it often brings in no signal at all. Move it slowly for better results.

**Question:** When I'm talking on a party line, how do I know if another party wants to call?

**Answer:** You may hear him lift the receiver. If so, the neighborly thing to do is finish your conversation as soon as convenient so he can make his call.

**Singspiration Each Sunday at First Baptist**

Lovers of good gospel singing are invited to attend the "Singspiration" at the First Baptist Church Sunday evening in the church basement, following the regular preaching service, music and educational director, Bonnie Smith, announced this week.

Mr. Smith and Miss Wanda Karnes of Hardin-Simmons University, Abilene, will be in charge of this program, which will include special numbers, group singing and choruses. Special emphasis will be placed on the young people, but all ages are invited. Refreshments will be served.

**Leader Highly Favors Soil Conservation Plans**

"I would like to see more work done in getting this land of ours back into a good state of productivity," stated C. E. Lantrip, pictured above.

The Jones County farmer has served as a supervisor of the California Creek Soil Conservation District since 1943, having been re-elected to the position in 1946, for a five year tenure. During this period he has served as secretary for the Board of Supervisors. Lantrip farms three miles northeast of Anson. Two of his farms have been under agreement with the district four years.

When Lantrip placed his farms under agreement with the California Creek Soil Conservation District he was aware of the benefits that could be derived from conservation farming and good range management. Under this program he has improved his land by terracing, contour cultivation, stubble mulching, crop rotation as well as improved his pastures by good management. He also built his first terraces with regular farm equipment and through this use has found that wide terraces are more practical and profitable. He practices the rotation of crops in such a manner that the same row crop will not be planted on the same land more than two years in succession. In 1946 a pond was constructed on his 100 acre farm, being planned and staked by SCS technicians and partially paid for by use of the PMA program.

"This next fall I plan to plant cover crops on some of my sandy land southeast of Anson. This farm is in need of soil improvement and through the use of such adapted cover crops such as vetch and rye, I believe I can improve it by reducing wind erosion and increasing its fertility," said Mr. Lantrip.

Mr. and Mrs. Dewey Mallonee and son, Leon, of Wichita Falls visited her mother, Mrs. Ada Smith, and his sister, Mr. and Mrs. R. E. McCormick, here during the week-end. Miss Mary Margaret Stephens of Lubbock is here for a visit with her grandparents, Mr. and Mrs. J. H. Foster.

Robbie Sparks of Mathis is here as the guest of her aunt, Mrs. S. D. McMahon.

### ALL RIGHT,

maybe Bert the Barber doesn't know a kilowatt from a cable, but that does not stop him from being one of our bosses, just the same.

Surprised? Didn't you know your electric light and power company is owned by Bert, and a lot of people like him—and like you, too?

People from all walks of life—doctors and industrial workers, teachers and farmers, mechanics and milkmen—have put some of their savings into our company. Those people are direct owners.

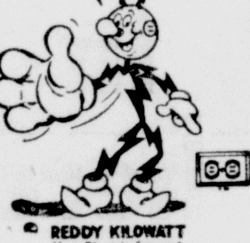

But there are countless indirect owners, too—many (like Bert the Barber) who haven't an idea that they have a stake in the electric industry. Those are the people who have savings accounts or life insurance policies. Nowadays, that means practically everybody!

Here's how it works: When banks and insurance companies accept your money, they must invest it wisely—and soundly. And because business-managed electric companies have a long record of faithful service, much of this money is invested in their securities.

So you, too—like Bert the Barber—are very likely to be one of our bosses.

HOWDY, BOSS!

HOWDY!

**West Texas Utilities  
Company**

## 12 Years REA Progress Observed On July 25

Commemorating 12 years of progress in the electrification of rural areas, the week of July 13-19 has been proclaimed by Governor Beauford Jester as Rural Electrification Week in Texas.

A copy of Governor Jester's proclamation was received this week by Lon R. Adams, superintendent of the Midwest Electric Cooperative, which serves over 1,800 rural families in this area with electric lights and power.

The governor's proclamation, issued in Austin, points out that the percentage of rural homes in Texas having electric service has increased from 2.3 per cent to 55 per cent during the past 12 years.

"More than 160,000 farm and ranch families of Texas may enjoy the benefits of electric lights and power through cooperatives which they themselves own and operate," the proclamation stated.

"Each of the 75 rural electric cooperatives operating in Texas is a free and independent, taxpaying business enterprise, owned and controlled by the farmers who receive service along its lines," the governor pointed out.

"The money to build rural power lines is loaned, not given, to the cooperatives by the federal government and is being repaid with interest on or ahead of schedule, thus representing no loss to the taxpayer. Not a single electric cooperative in Texas is delinquent in the repayment of its loan to the government, while more than a million dollars has been repaid in advance of due date.

Electricity has brought about a wholesome revolution in farm methods, production and living standards; has lightened the drudgery of farm tasks and increased farm output and profits; has been instrumental in keeping young people on the land; and has promoted the general welfare not only of rural people but of urban residents as well, whose prosperity and well-being depend upon a sound and prosperous agriculture," the proclamation stated.

Rural electric cooperatives of Texas will hold their annual statewide meeting in August 1947 and 1948. The Midwest Electric Cooperative will be represented at the state meeting.

## Farm Funds May Be Restored For Soil Conservation

Farmers and other interested persons were assured this week by Senator Bushfield, Republican of South Dakota, that a Senate Appropriations Subcommittee in Washington has reached a preliminary agreement to restore to the farm appropriation bill a full \$300,000,000 fund for farm benefit payments and continue the program in 1948.

This, Jones Countians learn, is contrary to House actions on the measure, which cut the "conservation and use payment" to \$150,000,000 of 1947 and directed that no benefit payments be planned for the 1948 crop year.

Bushfield said the decision was "reached unanimously" by the subcommittee—which has not yet completed work on the annual farm supply bill.

The senator adds that payments for the 1948 program probably would be held to approximately \$150,000,000.

## War II Service Navy Vets May Get Medals for

Navy Recruiting Station in Abilene has been authorized to issue American Defense Service medals and World War II Victory medals to area Navy veterans beginning August 1. Chief H. F. Lindsey announced while in Hamlin Monday and Tuesday.

A news release from Washington, D. C., states that Army depots will be prepared to take care of applications by August 15, and Army applicants should wait until that date before applying unless advised otherwise by local announcement.

Veterans who were on active duty September 8, 1939, to and including December 7, 1941, are entitled to the American Defense medal. The World War II Victory medal will be awarded to ex-servicemen who were on active duty from December 8, 1941, to and including December 31, 1946.

Former Navy enlisted personnel who are entitled to either medal are requested to report to either of the above stations and present their original discharge papers and their notices of separation, Chief Lindsey said.

## Good Games Featuring Revamped Softball Loop

### Barq's Team Play All-Stars Saturday

Well-played, interesting games are being dished out for the customers at Hamlin City Park most of the time, officials of the recently revamped Hamlin Softball League said this week. In addition to league games, the Saturday night melees featuring top Abilene teams against local All-Stars aggregation are attracting good crowds.

Saturday night the Holly Motor Club succeeded in beating the All-Stars 3 to 2 in their third game of the summer. This Saturday night the Barq's team of Abilene will play the All-Stars. Preceding the boys' battle, Sylvester girls will play the Neida girls.

In the League proper, General Crude is leading by a good margin over Wise Chapel with the VFW, Sylvester and Celotex following in that order.

Results of the past week are: Thursday night, Neida girls 7, and Celotex 6 and General Crude 7, Celotex 3; Friday night, Hamlin girls 4, Celotex 9 and Sylvester 7, VFW 5. Monday night, Neida girls beat the Wise Chapel girls and General Crude beat Wise Chapel 3 to 2; Tuesday night Baptist Juniors beat Stamford Juniors and Sylvester 11, Celotex 10. Schedule for the following week: Thursday night—Hamlin girls vs. Neida girls and VFW vs. Celotex. Friday—Junior boys game and Celotex vs. Wise Chapel. Monday—Hamlin girls vs. Celotex and General Crude vs. VFW. Tuesday—Junior boys game and Celotex vs. Wise Chapel. Thursday—Neida girls vs. Wise Chapel girls and Sylvester vs. General Crude.

Official league standing through Tuesday night's game follows:

Team	W. L. Pct.
General Crude	19 2 .804
Wise Chapel	16 6 .727
VFW	12 10 .545
Sylvester	11 10 .523
Celotex	9 11 .450

## Billy Joe Ball Wins Scholarship At U. of Texas

Billy Joe Ball, son of Mr. and Mrs. E. Ball of Hamlin, is the recipient of one of the 117 University of Texas fellowships and scholarships totaling more than \$25,000, according to announcement by Dr. T. S. Palmer, University president.

Ball was awarded the Arthur Levee Scholarship for April 1 to July 31, receiving \$375. For the entire year he will receive \$62.50 per month, making the scholarship worth approximately \$750.

He is a senior at the university, majoring in mathematics and working on a Ph. D. degree. A veteran of two years in the Navy, he graduated from Hamlin High School in 1941. His wife, also a senior, is working on her degree. She is married and has a M. A. degree in chemistry.

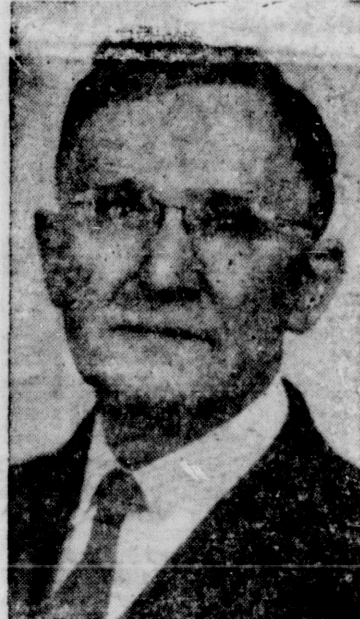

The Ball's have a son, Clem who is studying mechanical engineering at the university.

## Some Veterans Get Student Traveling Expenses Paid

Veterans who are required to go on field trips as part of their courses under the G. I. Bill may have their transportation costs paid by the cost is included in the regular tuition or in the fees charged students taking the course, according to a statement by the Veterans Administration this week.

If the cost of transportation is charged as a separate fee, or if the cost is not required of all students taking the course, VA cannot pay the bill. In that case, the cost of the trip for such purposes as the gathering of data for a thesis, attending a summer camp, or making a personal field trip must be paid by the veteran or the school, not the VA.

## Revival Begins Sunday at the Swedonia Church

### Nazarene Young People Attending Cisco Encampment

Rev. J. T. Crawford, pastor of the Hamlin Church of the Nazarene, went to Cisco Monday to take two young men from the local church to the district encampment at Lake Cisco.

Louis LaBaume and Donald Johnson will attend the camp all week. Marvene White, Inez LaBaume and Beth White went Thursday to the remainder of the week, and possibly others may attend part of the services.

## Strawn Sand To Be Checked In Noodle Section

Tests of the Strawn sand in several Jones County areas were revealed this week. This sand is coming in for lots of attention in recent weeks, following tests made near Merkel.

Ritz was being moved in during the early part of the week for a new test of Strawn about three miles northwest of Noodle, the Delhi Oil Corporation, No. 1 August Neuman et al. Permit calls for drilling to 4,500 feet with rotary rig.

Also due to check the Strawn, with top of the formation expected this week, is the cable tool wildcat one and one-half miles north of Noodle, the Roark, Hooker and Roark No. 1 Alec Carter. Last reported to be drilling below 4,300 with no commercial pay shows.

One and a half miles northwest of Anson, operators were plugging back for a completion attempt in the Saddle Creek at about 2,300 feet on the Carl Hogard No. 1 Lucy Goodwin. The well had been drilled to 2,960 feet, but failed to find production at that depth.

On the north edge of the county, four miles north of Avoca, contract depth is due to be reached this week on the Geochemical Surveys et al No. 1 E. W. Rosenquist.

Twelve miles south of Anson, the H. L. Hunt No. 1 F. Daniel has been abandoned with no shows reported to total depth of 2,685.

On the edge of the Reddin field, four miles north of Tye, the F. O. Penn et al No. 2 M. Holloway has been shut down for repairs at 2,030 feet.

In the Eskota pool of Fisher county, eight miles north of Trent, Stanolind Oil & Gas Company has filed application to drill a new edge well, the No. 5 J. B. Wade, 811 feet from the west and 1,258 from the north line of the west 180 acres of the south 320 acres of Section 11 block 19 T&P survey. Permit is for 4,700 feet with rotary and drilling was expected to be under way this weekend.

## Former Pied Piper Bill Scott to Coach at Levelland

Bill Scott, a Hamlin boy who made his athletic mark while wearing the green and white of the Pied Pipers, has accepted the position of assistant coach at Levelland High School and will assume his duties there in the fall. Scott was captain of the 1946-47 Hardin-Simmons University Cowboy basketball team and was president of the Student Council.

It is spring he received a bachelor of science degree in physical education with a minor in history from HSU. During World War II he served for five and one-half years with the field artillery.

He won his first cage letter in 1946 and was named captain. Last fall he was substitute fullback on the champion Cowboys united and undefeated football team.

At Levelland he will assist T. Uett S. Rattan, athletic director.

## Advertising Linage Up

Advertising lineage in Texas newspapers including The Hamlin Herald reported a gain for the third consecutive month in May, rising five per cent over April lineage, according to reports from 29 newspapers to the University of Texas Bureau of Business Research.

A revival meeting will begin at Swedonia next Sunday, July 20, and continue through July 27, it was announced this week.

Rev. W. P. Julein, district superintendent of the Free Methodist Church from Peoria, Illinois, will be the evangelist doing the preaching at each service.

The services will begin at 7:45 p. m., and the public is cordially invited to attend.

"We need your presence and you need the gospel. Come let's worship and work together for our homes and for the church," Swedonia church leaders urged.

## Only 14 Days to Renew Herald at Old \$1.50 Rate

Only 14 days remain for The Herald subscribers to renew their subscription at the present rate of \$1.50 per year before the new rate of \$2 and \$2.50 goes into effect on August 1. Many readers have recently taken advantage of the opportunity with more coming in this week than ever before.

As a reminder, the present rate is \$1.50 per year in Jones, Fisher, Haskell and Stonewall Counties and is \$2 per year elsewhere. After August 1 it will be \$2 and \$2.50. Until August 1 renewals will be taken for as long as three years at the old price.

Several hundred sample copies were mailed last week and a considerable number of new readers have been added to The Herald's list.

As previously stated, the moderate hike in price is necessary to offset increased costs of paper, ink and the other production costs.

Don't forget—August 1 is the deadline and we're being fair by allowing three-year advance renewals.

Mrs. Ethelann Wellbourn of Dallas is visiting her father, R. L. Harris, and other relatives here in Hamlin.

## Steady to Strong Markets General In Southwest During This Past Week

Most southwest farm products found fully steady to strong markets last week, but many fruits and vegetables and a few livestock sold lower, according to the report sent to The Herald by the Production and Marketing Administration, United States Department of Agriculture.

After early-week declines, spot cotton scored sharp advances following the July 7 acreage report, and netted gains of \$8.50 to \$11 per bale. Medium and higher grades found strong demand in light trade. Texas crops made good growth.

Grain markets developed strongly last week. Sorghum prices soared again, gaining 60 cents per hundred, as South Texas movement reached full volume, and the July 10 crop report indicated smallest production since 1939. Corn netted little change, for cash reductions offset future market rises. An average crop of 2.6 billion bushels is forecast—675 million less than last year.

Eggs and poultry of good quality found steady to firm markets last week, and lower grades held around steady. Port Worth bought most eggs on candle grade at 47 cents per dozen for select whites, 44 to 45 for best mixed, and 40 to 42 for the mediums. Denver paid mostly 40 to 24, Dallas 39, and New Orleans was around 43 1/2.

West Texas potatoes found a dull,

## Progress Shown On Hamlin Building Projects

Various building projects now underway in Hamlin are making splendid progress, the latest survey reveals. As in every place throughout the nation various material shortages continue to hold up final completion of some.

Hamlin Memorial Hospital building is into the final stages where the walls and all interior work, including final plumbing and electrical work must be done before the building can be furnished and equipped. Leaders of the association are more enthusiastic about the project than ever and say that before Hamlin folk realize it, the hospital will be in use.

Final touches are being made at the building of the Banner Creameries new Hamlin ice plant. Company officials hope to be making ice in a few weeks. Front part of the building is now being completed and it is rumored a new local firm will occupy that unit.

Excavation for foundation of a new clinic and office building for Dr. Q. Don Gould, local chiropractor started this week. The building is located at the site of his former office on North Central Avenue and will be of the steel and stucco construction.

He expects it to be completed within 60 to 90 days.

Crews of workmen completed installation of cork at the Phelps Locker Plant this week, but it will take several weeks work yet before the new addition to the plant's facilities will be completely ready.

Construction men are still busy on the new grade school buildings, but it is believed they will be fully completed by the opening of school. New air-conditioning systems are being installed at the First Baptist Church and it was said Wednesday that it would be completed and ready for use this next Sunday.

A number of other jobs are in various stages of work and several new residences are being built. Shortage of vital materials is proving a handicap in that field, too.

## \$775,000 Bond Issue Carries At Stamford

In an election held Tuesday at Stamford, taxpayers voted 176 for and four against the issuing of \$775,000 in revenue bonds for the purpose of improving the water system and extending sewer facilities.

Present plans are to build a dam on Dentman's Creek about half a mile above where it empties into the Clear Fork of the Brazos River. A 16-inch pipeline six miles long, would connect the new lake with the filtration plant at Lueders.

Immediate steps are expected to be taken to improve the Stamford water system.

## Hamlin and Trent Tied For Crown; One More Game Set

### DESTRUCTION VS. REPRODUCTION

The summer's bitterest battle is raging today across the Cotton Belt—the struggle of the farmer to protect his cotton crop from the hungry boll weevil and other insect enemies. Multiplying with unbelievable rapidity, the boll weevil can heavily damage the crop unless controlled by insecticides, the National Cotton Council declared. The mule-drawn duster shown in the picture distributes insecticides over several rows of cotton simultaneously, but many other types of equipment are available to meet the needs of every size farm.

Hamlin Pied Piper baseball team went down in defeat 14 to 5, Tuesday afternoon before the Trent nine, who came from behind to tie up the race for the District 13-A flag.

Three consecutive games the Trent team has bowed to the local lads, but the Pipers with several mainstays missing, were unable to turn the trick Tuesday. Rowland and Black pitched for Hamlin.

The Pipers had turned back Trent 4-3 in a hard fought game here last Friday afternoon that was marked by a protest from Trent officials. Trent protested the decision of one of the umpires and league officials had not yet met today to decide the matter.

Coach L. B. Howard said Wednesday he expected the third and first game of the series would probably be played next Tuesday, with the site still to be selected. Winner of the game will no doubt be declared 1947 league champion.

## C of C Elects 2 New Directors At Tuesday Meet

Starr Inzer and Art Carmichael were elected as members of the local board of directors of the Hamlin Chamber of Commerce to fill vacancies created several weeks ago, at the regular monthly meeting of the board Tuesday morning in the office of the secretary, Mrs. E. M. Wilson.

The group also voted to continue meeting incidental expenses of the Hamlin Memorial Hospital Association until the institution is completed and in operation. Bowen Pope, who directs the activities of the association, was present and made an interesting report of expenditures to date and also said that the building was in final stages of construction and that within 60 days it would be ready for furnishing and no doubt actually ready for use.

Pope stated that several persons have already expressed a desire to furnish a room in the new hospital and anyone wishing to do so is urged to contact Mr. Pope or any member of the committee in charge.

Mrs. Wilson read a letter of appreciation from Clifton Townsend, the fine Jersey heifer recently awarded to him by the Chamber of Commerce as part of its dairy improvement program.

Several committee reports were made, also.

## South Jones Oil Refinery To Re-Open This Week

Another Jones County industry got underway this week with the announcement that full-scale operations would be underway Monday at the Owens Refining Company plant, two miles north of Hawley. Workmen have been busy for several weeks cleaning up the plant, formerly known as the Moutray Refinery.

The plant, which had been shut down for more than a year, has been bought and reconditioned by J. P. Owens and George P. Mann, both of Overton, and is to be modernized and expanded as rapidly as materials for such changes become available.

Mann is in direct charge of the plant operations, and will live at the plant here, while Owen will remain in Overton to operate a refinery he has owned for a number of years near there.

Crude buyer for the Hawley plant is Carl A. Prater, who has been connected with the pipeline and crude purchasing phases of the oil industry for more than 20 years. He has his headquarters at the Windsor Hotel in Abilene.

At the present time, the plant has a capacity of about 1,200 barrels of crude per day, and when in full operation will employ 18 men on a 24 hour schedule.

Most of the crude for the plant will be gathered from nearby fields through pipelines included in the sale of the property by Moutray, but additional crude is expected.

## Duroc Swine Club Organized as New Project of Hamlin Future Farmer Boys

### McCauley Gets New Postmaster

Roy B. Hennington, native of the McCauley community and principal of the high school there, has been appointed as postmaster of the Fisher County town. A graduate of HSU in 1931, he has been connected with McCauley schools for 12 years.

He will succeed Mrs. Lottie Rector, who is retiring after 25 years as McCauley's postmaster.

## Cotton Prices Up \$8 Bale as Strong Demand Pegged

Spot cotton prices gained from \$6.75 to \$8.50 per bale during the past week, and farmers of Jones, Kent and Fisher Counties should be encouraged by the fact demand was strong for medium and higher grades of cotton.

So reports the U. S. Department of Agriculture in its Weekly Cotton Market Review, which follows:

Cotton in cultivation on July 1 was estimated at 21,259,000 acres. Although almost 3,220,000 acres larger than planted acreage in 1946 it was considerably below trade expectations.

Demand from domestic mills was rather dull for prompt shipment. More inquiries were reported for delivery from September through December.

The cotton crop in the Hamlin territory and throughout West Texas was making good progress—although a light rain would be highly beneficial. Picking and ginning were making good progress in the Rio Grande Valley, with an estimated 20,000 bales expected to be ginned by this week-end.

The 1947-48 supply of cotton, carry-over plus the 1947 crop with a yield equal to the five-year average, would total approximately 14,000,000 bales, excluding exports. The corresponding figure for 1946 was about 16,000,000 bales.

Reported sales in the 10 spot markets totaled 32,400 bales for the week, compared with 35,550 a week earlier and 80,100 a year ago. Inquiries for cotton were more numerous than for a week earlier but sales were again limited in volume.

Inquiries, the review concludes, for print cloth and sheetings increased but the volume of sales were only moderate in the face of the strengthening prices for both nearby and deferred delivery.

Members of the Hamlin chapter, Future Farmers of America, interested in better hogs and improved swine production, have organized a Duroc Swine Club, according to an announcement by their advisor, T. C. Blankenship. The new group is set up along the same lines as the Junior Jersey Club, now a very active group. Blankenship, versatile high school instructor in vocational agriculture, is guiding the new club.

The club is composed of seven members who pooled their resources and purchased the Duroc sow Daisy Jane, that was dam of champion barrows at Houston, Fort Worth and the State Fair of Texas in Dallas. They bought the sow from Duane Boeing of Converse near San Antonio, one of Texas' most outstanding 4-H Club boys. This sow will farrow later this summer and the pigs will be by The Chief, a boar bred at Texas A. & M. College.

Several pigs from the same breeder have been bought by local boys, according to Blankenship including a boar pig and a gilt pig bought by Antonio Gonzales, club member.

Daisy June is being kept at the home of Weldon and Clifton Townsend.

## Rendering Firm Offers Service To Community

Central Hide & Rendering Company, a well known firm serving this territory, offers a special service that has proved of much value. The company is becoming widely known for its unique slogan, "Your Local Used-Cow Dealer."

In speaking of their service, Jim McDonald of the firm's Wichita Falls office says:

"We can keep the community clear of all dead stock and offer a special service to the packing houses and meat markets by picking up their offals, bones and other refuse and aid them to meet the higher standards of the city, county and state health departments. In the picking up of dead stock for the farmers and ranchers we use the most sanitary trucks and equipment that have been manufactured, and as an added service we disinfect the area of the fallen animal."

"This refuse and all dead stock are processed into grease which is used in the making of soap stock; slaughter house hides which are used in the making of shoes and other leather goods and cracklings which are used in the making of poultry and hog feeds."

## On Trip to Georgia

Mr. and Mrs. Tom Routh and Miss Dorothy Fern Routh left Monday for points in Georgia to visit relatives and spend a vacation. Mr. and Mrs. Routh were both born in

WESTERN BELL TELEPHONE COMPANY

## POT SHOTS FROM McCAULLEY Cotton Grows; Poisoning Underway Boll Weevils Still Scarce in Texas as

Fortunately the 1,452 farmers of this county have not as yet reported boll weevil infestations and the weevil and cotton insect situation over Texas, as prepared by the Texas Agricultural Experiment Station, will prove of value:

Boll weevils are still comparatively scarce in most areas of Texas although some counties showed increases. Many fields in southern counties showed increases in the percentage of squares punctured, but these increases, especially in the Lower Rio Grande Valley, were due mostly to scarcity of squares.

Flea hopper infestations continue medium to high in most central and southern counties, but in the latter area dry weather and maturity of cotton are rapidly reducing the infestations below the damage point in many fields. In North Central Texas flea hoppers were found in 23 of 34 fields inspected.

Leafworms were found June 30 in Calhoun County. The first appearance this year of leafworms was in Nueces County June 21.

Grasshoppers are continuing as a menace to cotton in many central and western counties.

Upper Coastal Area—Weevil infestations in 101 fields inspected aver-

aged: Wharton 29, Victoria 20, Fort Bend 10, and Calhoun seven. Flea hopper infestations were considerably reduced this week, the average being 17 and last week 21. The averages by counties were: Fort Bend 23, Victoria 21, Calhoun 14, and Wharton five. Many fields in this area have been successfully dusted for weevil and flea hopper control. In the northern part of this area, continued rains and muddy fields have resulted in extremely high boll weevil infestations in many fields of rank growing cotton. A hard fight with calcium arsenate against the boll weevil needs to be made in these fields.

South Central—Twenty-six fields were inspected for weevils in eight counties with the following averages: Bastrop 10, Burleson 11, Caldwell six, DeWitt 10, Gonzales nine, Hays six and Karnes 18. The average number of flea hopper per 100 terminals in these counties was: Bastrop 15, Burleson 29, Caldwell four, DeWitt 17, Gonzales nine, Guadalupe six, Hays 16, and Karnes 18.

Central Texas—There was a still further increase of flea hoppers, the average this week being 21 as compared with 17 last week. Forty-one fields showed averages as follows:

tal last week, was seriously ill at our last report.

Mr. Beech Jones and Wayne Webb

Williamson 16, Falls 43, Hill five, Navarro eight, and McLennan 23. The weevil infestation averaged 19 per cent, with McLennan averaging 28, Falls 18, Williamson 19, Navarro four, and one field in Hill showing none.

North Central—Flea hoppers and weevils were low in nearly every field inspected. Boll weevil infestation records were made in 30 fields with averages as follows: Collin nine, Fannin nine, Dallas two, Hunt two, and Ellis one. Thirty-four fields were inspected for flea hoppers with 11 fields showing none, 11 between one and 10 and five between 11 and 25.

## Texas Business Index Continues To Show Climb

Hamlin and Jones County people are informed this week that Texas business activity remained 87 per cent above its prewar level in May and stood 10 per cent higher than in May a year ago, according to the index prepared by the University of Texas Bureau of Business Research.

Only sobering element in the picture was the fact that activity did turn downward slightly in May, falling one per cent lower than in April. Texas business for the past six months has fluctuated within a narrow range but has always remained at a very high level. The post-war peak was reached in February, a month before the national peak, but the February index was only two per cent higher than the index for May.

Trade continued high in May, as retail sales of independent stores were six per cent larger than in April and 17 per cent greater than in May, 1946. The general dollar figures observe the retail trade situation, however, because prices have risen and sales in some lines declined. Sales of soft goods have failed to rise as rapidly as sales of durable goods, and luxury items are feeling definite slumps.

Production on the whole remained steady in May throughout the entire state. Expected seasonal declines were reported in cotton consumption, cotton linters consumed and cottonseed crushed. On the other hand, dairy manufactures, lumber production and crude petroleum production turned up and showed substantial gains over May of last year.

Texas agriculture continued to enjoy dollar prosperity in May with farm cash income soaring 15 per cent above the April level to stand 18 per cent above the May 1946 figure.

## Three Sisters Meet for First Time 58 Years

Hamlin is the setting for a meeting of three sisters who had not seen one another in 58 years.

Mrs. Tom Rogers, mother of Mrs. Homer Helms, is here from Lone Wolf, Oklahoma, for a reunion with two sisters, Mrs. Mary Johnson of Springfield, Illinois, and Mrs. Nanny Roman of Los Angeles, California, whom she had not seen in 58 years.

The sisters are 76, 73 and 71 years of age. A brother, Lon Rogers of Lone Wolf, Oklahoma, is also here to visit his sisters.

Miss Myrtis Clemmer has returned home after several weeks visit with her grandmother, Mrs. Elliott in Lubbock.

Mrs. Ray Willingham and Ray Jr. of O'Donnell spent the week-end here.

Mr. and Mrs. Clyde Moss and Mr. and Mrs. Ray Moss of near Anson visited the Donald Bryants Saturday evening.

Margaret Darden of McCaulley spent the week-end in Hamlin with Mr. and Mrs. W. H. Pickron Sr.

Misses Jane Adams and Phillis Richardson will be home Friday for a few days between sessions from Texas Tech College in Lubbock.

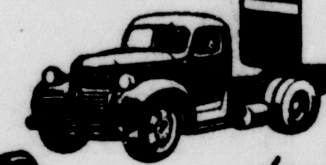

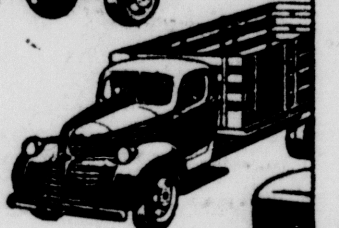

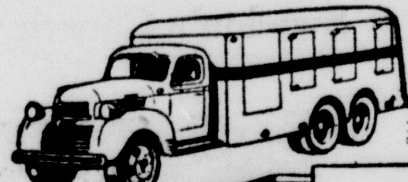

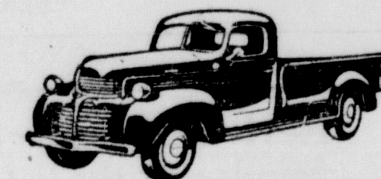

Roy B. Adams of Wichita, Kansas, visited with his brother Seth Adams and family last week.

Goes to College.  
J. C. Blankenship is attending the Sam Houston State College in Huntsville.

Propane Users!*

**Now**

**IS THE TIME TO**

**INSTALL A LARGER**

*Butane or Propane System*

If your butane or propane tank is not large enough to last four winter months without refilling, you may be without fuel when you need it this winter. The Texas Butane Dealers Association asks every user of heating gas to take stock of his present system at once.

Many people have added new appliances—ranges and refrigerators—until they've outgrown their gas systems. The war developed new industries which use butane and propane gas on a year-round basis, while domestic users burn four to seven times more in winter than in summer—but your dealer can furnish you very little more gas in winter. To ease this high winter demand, heating gas users must tank-up with a full four-month's winter supply.

It's the age-old question of "stocking up" early. Farmers have always stored summer grain for winter, just as housewives do their summer canning. And it's "Winter-Insurance" to store your heating gas ahead. Your four-months supply will be in your own tank when you need it most. You'll also help your dealer make deliveries more economically and efficiently when road conditions are worst for gas delivery.

The Texas Butane Dealers Association urges you to drop in and see your local gas dealer as soon as possible. He knows butane-propane, and he will do everything to help you get ready for new winter—now. Before you buy any heating gas system, see your local gas dealer first!

## 'Tween Me and my Typewriter

by Jeanelle Bryant

Never attempted to write so early in the morning, but it seems a good idea. You might try reading it in the cool of the day too, but not before you have had that cup of coffee, so soothing and awakening.

August 23 rolls around? A very important question is to be decided by polls to vote on a proposal to amend the state constitution to make possible the levying of a five cent ad valorem tax, the proceeds of which would be used to purchase building sites and equipment and to erect the buildings to meet the needs of our growing institutions of higher learning.

The proceeds of the five cents will be divided among 14 state colleges according to their enrollment. The total life of this tax is 30 years.

All friends of education are being urged to support this amendment.

## MEDICAL RESEARCH IS YOURS Through YOUR DRUGGIST—

Your pharmacist shares in the victories won in the field of disease prevention and control, for first of all, he is a scientist, hopeful of even greater achievements in his chosen life's work. The progress made all over the world in the field of medicine is his progress—its benefits are his share to you. Recent discoveries are available to you NOW through your druggist. Call on him.

## Waggoner Drug Store

"FUSSY PILL ROLLERS"

At our house, we don't choose our breakfast cereal to suit our taste, but according to which has the most attractive paper dolls, pins, circus animals, etc. on the inside. The favorite daughter listens to the latest radio programs, reads the papers, and demands the cereal which contains the better prizes. Don't tell us advertising doesn't pay off.

Never have we heard so many complimentary remarks about an individual as we did a few days ago about a young Hamlin matron. The good words were not spoken in the presence of the recipient of the praise so we are sure they are sincere. She was described as an immaculate housekeeper, model mother, wonderful cook, outstanding church and social worker and one who keeps up with the times by reading the very best literature. What greater acclaim could be given anyone? Do you want to know of whom we are speaking? Alright, it is Mrs. W. L. Boyd Jr., mother of three sons, who has just as many problems to meet as any of us.

Our neighboring city of Anson really made national news by having the picture of the recent tornado featured as the picture of the week in Life magazine. Now, we don't wish to detract from their glory but we rather doubt that the citizens be so accustomed to such events they were not excited as Life writer would have one believe. We betcha if that twister had ever really headed toward town, not a person could have been found standing calmly viewing it. Anyhow, it is a good impression to give the nation. Everyone may be clamoring to move to such a section of these United

States, but it is a long drive to live here that long.

Ladies, don't be alarmed if your husband says he is going after a Hawaiian Wiggler, Hula Dancer or a Jitterbug. It's no grounds for a divorce if he comes home with all three of them. 'Cause they are bass baits, or so they tell us.

There is a Bulgarian proverb to this effect, "A woman needs three husbands: one to support her, one to love her and one to beat her." Personally, we would not care for the third.

If you missed that Anson-Hamlin Lions Club softball game last Wednesday night, you failed to see some real players "show-off."

Rumors have it that P. D. Harkins had the idea that these new automobiles don't have to use gasoline. Or at least, he must have believed it since he drove from Shawnee, Oklahoma to Oklahoma City, on to El Reno and back almost to Haskell and he and his wife couldn't quite figure it out when the car began to spit and finally stop. When the truth finally dawned upon them, P. D. had to walk a half mile to obtain the required power juice.

We are told that tact is that which prevents a gray-haired old man with a wrinkled face from reminding a youthful-looking woman with the complexion of a rose that they were boy and girl together.

But what we are more interested in, is just what make of cosmetic the lady uses.

John Jenkins and Jimmy of Sundown visited relatives here last week.

James I. Steed—July 47

## Higher Than Year Ago Under OPA

Meat animal prices in Jones and other counties of the nation averaged about 50 per cent higher during the first half of 1947 than under price ceilings of a year earlier, the U. S. Department of Agriculture reports.

Prices for meat are said by the department to be 19 per cent higher than in the last half of 1946. Cellulose, it will be recalled, were removed late in October, 1946.

Meat production in Jones, Fisher, Stonewall, Kent and other counties—to narrow the picture down to sectors—for the first half of 1947 about equalled the first half of last year and was the third largest on record for the six-month period.

U. S. Department of Agriculture officials predict more beef and veal will be produced this summer than last. Hog slaughter in Scurry County, for instance, is expected to decline during the rest of the summer but will increase during the fall months. A number of county people, for example, have frozen food locker boxes this summer.

Local buyers and close livestock market observers say hog prices will continue high until marketing increases in the fall.

Prices here of grass-fed cattle, on the other hand, are due to decline by September. It is stated a 10 to 15 per cent price drop from spring peak to the low of September and October is common.

Mr. and Mrs. Bobby Barrow of Sundown visited here last week.

## By Home Agent

It isn't a bit too early, says Miss Corretta Allen, Jones county home demonstration agent, to start thinking about planting that fall garden. Now, while the weather and selection of garden materials are good, the smart gardener will begin to plan and lay in supplies of seed, inoculating dust, seed testing materials, insecticides and fertilizers. Planning what to plant, when and how much is just another wise step in modern vegetable raising, Miss Nabors declares.

Here are a few things to do in the future fall garden site that will start things off right. "Shave" the plot where the garden will go. Add well-rotted barnyard fertilizer, applied broadcast, and plow or spade it in near the top of the ground. Keep the site well pulverized and watered if it needs moisture. Start

## News Briefs From Stonewall County

Future Homemakers chapter of Aspermont enjoyed a swimming party at Hamlin lake. Stonewall County veterans will be in Aspermont on the third and the fifth Thursday of each month at the office of the County Judge H. H. Shadle. Deposits are over the \$1,500,000 at the First National Bank of Aspermont with total assets of \$1,837,391.09.

Louis Stip of Big Spring returned home yesterday after spending several days here with Robert Angel. His parents, Mr. and Mrs. P. L. Slipp, came for him and had dinner with the Angels Monday evening.

# POT SHOTS FROM McCAULLEY SOCIETY

## Baptist Young Men's Class Enjoys Picnic

Members of the Young Men's Bible Class of the First Baptist Church entertained their wives at a picnic Tuesday evening at the bank cabin on the lake.

The teacher, W. C. (Ted) Russell, and several of the members prepared the delicious picnic supper and served at a table in the open. Weiners, pickles, onions, fritos, punch and iced watermelon were enjoyed by about 45.

Volleyball was played during the evening.

Those attending were the following couples: L. T. Stubbs and son, Jim Howard King, Stanley Carmichael, Teddy Russell, Charles Prather, and son, Herman Treadwell, Lester Morton, Bill Shira, Paul Gentry, Lesley Shelburne and sons, Onis Crawford, Bonnie Smith, J. C. Turner, L. J. Cunningham and children, Vernon Shearer and son, B. Current and sons, Ray Johnson, Donald Bryant, Ted Russell, Joyce Murphey and Arlie Cassle.

## Two-in-One Apron Handy for Odd Jobs

One of the latest clothing developments off the designing board, Mrs. Hamlin Housewife, is what may be called a two-in-one apron, which is made to give your knees protection when doing kneeling jobs.

Such an apron, reports Hannah Nabors, Jones County home demonstration agent, will also give the housewife a spacious pocket in which one can carry anything from a packet of seed on up to a mess of turnip greens.

U. S. Department of Agriculture clothing specialists have put their okay on this apron as one that will be a real convenience to you in doing kneeling jobs, indoors or out. The apron has a big pocket, which is buttoned instead of sewed on. When you're ready to do a kneeling job, you simply unbutton the big pocket and turn it inside out and over the knees. Then you're protected from dirt and dampness. When the job is finished, you fold up the pocket, button it, and you have a handy place to tuck away gloves, seed packets, markers or any other small things that may get lost. If you try making this apron, the clothing specialists suggest you use a sturdy cotton material, and line the pocket with a plastic material that is both washable and waterproof. Then when you turn the pocket outward to kneel on, the plastic material will protect your knees from wet ground.

## Pick Tomatoes Early To Preserve Quality

Early harvesting of tomatoes maturing in over 50 Hamlin area home gardens is the best insurance against sun blight, reports Miss Hannah Nabors, county home demonstration agent.

Many gardeners, Miss Nabors says, are harvesting sun blistered, low quality tomatoes now because they are leaving the vegetables on the vine to ripen. Early harvesting is a good practice with many other fruits, especially peaches, the county home demonstration agent declares. Peaches attract birds when they begin to color, and ripening in the house can prevent a great deal of damage from birds.

## Comrades Class Have A Picnic Monday Evening

Mrs. Earle Misener, Mrs. C. B. Phelps, Mrs. Ray Maberry, Mrs. Pat Marlowe and Mrs. Lewis Madden were hostesses to the Comrades Class of the First Methodist Church at the Toler Lake Cabin Monday evening.

Mrs. Ray Maberry, president, presided at the business meeting, which included reports from the membership and absentee committees.

The roll call included 43 members, besides Mrs. E. M. Wilson, teacher, and Mrs. Holly Toler, assistant teacher. Mrs. J. F. Taylor was a guest.

A refreshment plate consisting of cheese-pimento and chicken salad sandwiches, potato chips, olives and cokes were served.

## BOYCE HOUSE— "Gives You Texas"

While in south Texas recently I was told that an argument arose at a ladies bridge club as to whether when after one cuts the cards before they are dealt, the one making the cut should put the two stacks together. So (according to the story) they decided to write a famous expert of bridge. He replied that, while there was no actual rule, it was courtesy for the one cutting the cards to put the two stacks together.

With that, the ladies thought the matter was closed. But not quite. At the end of the month here came a bill for \$30 from the expert. The club members consulted an attorney in their town to learn if they had to pay the \$30 and he advised them they did as the man they had consulted was an expert in the field of bridge rules and such advice was the way he earned his living. So they paid him the \$30.

Then at the end of the month came a bill to the club for \$10 from the lawyer!

Which reminds me of Mr. Goldberg. His friend, an attorney, said, "You look worried."

"Yes," he explained "I have a chance to put over a big deal but there is an obstacle." He proceeded to describe the situation, whereupon the lawyer told him how the difficulty could be surmounted. Goldberg made the deal with a profit of several thousand dollars. Soon after, he received a bill from the attorney for \$500 for professional advice. The bill was paid.

A week or so later, the businessman was walking along when he met the lawyer, and said, "It's a fine day, isn't it?" Then before the attorney could reply, Mr. Goldberg hastened to add, "Remember I'm telling you, not asking you."

## Screwball Designations.

Each of the two screwball cavalry rookies was given a horse. "How are we going to tell them apart?" asked one.

"I'll cut off my horse's mane," suggested the second. So they trimmed one horse's mane, but it soon grew out again. The first screwball then cropped his horse's tail, but it, too soon grew out.

"Let's measure the horses," suggested the first screwball. Sure enough, it worked. The white horse was two inches taller than the black horse.

## Literal Translation.

"Name?" queried the immigration official. "Sneeze," replied the Chinese proudly.

The official looked hard at him. "Is that your Chinese name?" he asked.

"No, Melican name," said the Oriental blandly.

"Then let's have your native name."

"Ah Choo."

## County Agent Urges Farmers to Employ Electricians to Wire

Stanley urges farmers of Jones County to get competent electricians to make any changes desired for the summer months.

The county agent regards, for example, REA electricity as one of the finest things to make rural life richer but he warns against faulty installations and "handy man" repairs.

As a means of safeguarding farm buildings, the county agent cautions against home-made extensions in barns or other buildings. A faulty installation, Stanley declares, can easily set a farm structure on fire.

"Your best and safest way to enjoy REA facilities is to have a responsible electrician to inspect all wiring, motors and other electrical appliances for possible fire hazards," Fowler says.

# Final Rites for Mrs. Castleberry Tuesday Afternoon

Final rites for Mrs. M. H. Castleberry, 53, who died Monday in Abilene, were held Tuesday afternoon at the Hamlin Calvary Baptist Church with the pastor, Elder W. E. Nunn, assisted by Elder E. D. Keller and Elder G. A. Nicholson.

Izora Kathleen Jones was born July 14, 1894. She was married to M. H. Castleberry November 20, 1910. She united with the Neinda Baptist Church August 16, 1906, and her membership has been with the Hamlin Calvary Baptist Church for the past several years.

Mrs. Castleberry died at the home of a daughter, Mrs. H. A. Martin, at Abilene after a lingering illness. She died on her 53rd birthday.

Burial was in Neinda Cemetery under the direction of Barrow Funeral Home.

Her friends and loved ones say "The Christian influence of this great woman will live on in the lives of all who knew her. Even in her

A bog is just another name for a marsh.

# CLOSED SHOP OUTLAWED IN 16 STATES

Houston, Texas.—The shaded states in the above map have either submitted constitutional amendments or enacted statutes outlawing the closed shop. Sixteen, or one-third of all the states, have done so. They are Arizona, Arkansas, Florida, Georgia, Iowa, Kansas, Nevada, New Mexico, North Carolina, North Dakota, Oklahoma, Tennessee, Texas and Virginia. The Taft-Hartley Act passed by Congress contained a provision outlawing the

closed shop, regardless of union or non-union affiliation, as a condition of employment, originated in this fast growing industrial city. The Secretary-Treasurer of the Christian American, Inc., with headquarters here, directed the campaign that resulted in its passage as an amendment to the Constitution of Arkansas and enlisted the support of the Attorney General of Florida in its enactment there. The hundred labor papers of the nation recently voted Mr. Muse to be "Public Enemy No. 1" of the movement to organize the unorganized; he has been investigated by two State Legislatures and castigated by several others and a bill has been introduced in the Texas Legislature to revoke the charter of the Christian American which was granted in November 1936. The Chairman of the Communist Party in Texas recently filed suit against Mr. Muse for \$15,000.00, claiming that her reputation was damaged when Muse printed her picture along with 37 members of the Texas House of Representatives who voted against the Right to Work measure. The suit was withdrawn when Muse's attorney, Bernard A. Golding, announced he was ready to go to trial. Ultimate objective of the Christian American group is an Amendment to the Constitution of the United States guaranteeing every person the right to work regardless of union status. A recent nation-wide survey shows that Texas has the most complete and effective set of labor regulatory measures of any state in the Union. . . . Directory of State Lawmakers.

# August 1 Final Date for Transfer Of All Students

All parents or guardians who have children they desire to transfer from the school district to another must do so on or before the first day of August. Application for transfer may be made in the office of the county superintendent, Everett Deaton, at Anson.

For the information of school patrons, portions of the transfer law are quoted below:

"Article 2696.—Transfer.—Any child lawfully enrolled in any district or independent district, may by order of the county superintendent, be transferred to the enrollment of any other district or independent district in the same county upon a written application of the parent or guardian or person having lawful control of such child, filed with the county superintendent; provided, that any district or independent district or independent district be-

ing dissatisfied with any transfers made by the county superintendent may appeal from such action to the county board of trustees of said county who shall have the right to annul and cancel the transfer allowed by the county superintendent.

"The applicant shall state in said application that it is his bonafide intention to send said child to the school to which the transfer is asked.

"Upon the certification of the transfer of any child, from one district to another district, by the county superintendent of the county in which said child resides at the time of the transfer, the State Department of Education shall authorize the State Treasurer to pay over directly the per capita apportionment, in independent districts of 500 or more scholastic population, to the district to which such child is transferred; and in all other districts, to county superintendent, to be paid by him to the respective districts to which such children are transferred; provided, no transfer shall be made after August 1. (Acts 1935, 44th Legis-

lature, Ch. 201, Section 1, page 488.)

"Note—Children living in a county line district may be transferred to any district in the county which has jurisdiction of the school but cannot be transferred to any district in counties not having jurisdiction, except those adjoining the county line district. Transfers are made by the county superintendent prior to August first. The county board has no jurisdiction over transfers except where to August first in such of a man-schools are classified subsequent to that students are deprived of attending the grades to which they are assigned. In such cases, the county board may make the transfers. No conditional transfers are authorized. For length of term to which transferred scholastics are entitled see Article 2678-A and also Slocum V. Cameron Independent District, 288 south west 1064.

"Article 2697.—Transfer to adjoining county.—Any child specified in the preceding article, and its portion of the school fund may be transferred to an adjoining district in another county, in the manner provided in said article. It must be shown to the county superintendent that the school in the district in which such child resides, on account of distance or some uncontrollable and dangerous obstacle, is inaccessible to such child. (Acts 1907, 30th Legislature, R. S. Ch. 130, 91a, page 242.)

# Grasshoppers in State Still Show Slight Damage

Because Jones and Fisher County farmers are worried about grasshopper infestations and slight outbreaks of "rag worms," the following report from the Texas A. & M. College on the cotton insect situation over the state will prove of timely interest:

Boll weevils remain in low numbers in the lower Rio Grande Valley and Coastal Bend area, but are causing damage in Victoria, Jackson and Wharton Counties of the Upper Coastal area and in some fields of Madison County in the Trinity River bottom of East Texas. Several groups of Scurry and Borden County have recently visited the Rio Grande Valley.

Flea hoppers have increased in most of the coastal counties during the week. These insects are transferring from horse-mint to cotton. A still further increase may be expected as the horse-mint matures and ceases to be attractive to the flea hopper.

No leafworms have been reported to date.

Lower Rio Grande Valley—Early planted cotton is fruiting heavily and cotton insect infestations are generally light. Of 41 fields inspected only seven had weevil infestations above 10 per cent. Five were in Cameron and two in Starr County.

Coastal Bend Area—Weevil infestations averaged four per cent in Kleberg, Duval, Nueces, San Patricio and Jim Wells Counties. The numbers of flea hoppers found per 100 terminals in these counties were: Kleberg five, Duval 21, Nueces nine, San Patricio five, and Jim Wells 20.

Upper Coastal Area—Weevil infestations averaged 19 per cent in 15 fields of Victoria, Jackson and Wharton Counties. Two fields in Victoria were between 25 and 50 per cent, and one field in Wharton was above 50 per cent. Flea hoppers increased during the week from an average of 13 per 100 terminals to 20 with a high increase noted in Othman County. It is recommended that growers in this area inspect their fields often and that heavily infested fields be dusted as soon as possible with five per cent DDT-sulphur.

Central Texas—Grasshoppers continue abundant in some of the river bottom fields. Weevils remain low. Flea hoppers at present are in small numbers but are slowly increasing in Burleson and McLennan Counties.

South Plains Area—Lubber grasshoppers are numerous and moving into cultivated crops in Cochran, Tockley, Howard, Lubbock and Terry Counties.

# Unit Trainees Gain Weight and Height

In a news release from the Army this week Hamlin people are informed that with the Army routine of good food, regular hours and exercise has resulted in an average weight gain of six pounds per man in the last 12 weeks at the Universal Military Training Experimental Unit at Fort Knox, Kentucky.

Forty per cent of the trainees show a chest expansion of one inch or more while an additional 15 per cent gained one half to one inch. Twenty per cent of the trainees had grown half an inch or more in height in the 12 week period.

**THE HAMLIN HERALD**

## POT SHOTS FROM MCCAIN IFY Job at Colorado, Stayed for 21 Years

John R. Baze, former Hamlin newspaper man and employee of The Colorado Record at Colorado City, is celebrating his fiftieth year as a printer.

Baze started in the newspaper business at 50 cents a week in Snyder, working after school hours at The Coming West, published by Colonel Dick Lively. Baze had duties of cleaning out the shop and running the ink roller on the hand-set type in the old Washington press here.

After graduation from high school Baze went to Knox City on the first

train that rolled into that new townsite, worked on the Knox City Herald and pitched on the town baseball team. Less than a year later he went to work for I. J. Pierce and George Powers, owners of The Hamlin Herald—but was sent by them to Shafter's Lake in Andrews county, a town that had a newspaper in 1907, but now a ghost village.

Baze was next a printer at Fluvanna, but in 1908 returned to Snyder and published The Coming West himself under lease for two years. He went to Midland in 1910, was with the Roswell, New Mexico, newspaper until 1920—during which time he served as manager and superintendent of the Odd Fellows Orphan's Home at Roswell.

After a bout with typhoid fever he became editor of the Dalhart Texan.

**Law Offices Reopened**  
**W. H. EYSEN JR.**  
Attorney-at-Law  
North of Morgan Ins. Agency

tal last week, was seriously ill at our last report.

Mr. Beech Jones and Wayne Webb

A STARTER at 50 cents a week on The Coming West in Snyder, John Baze, associated with The Colorado Record the past 21 years, is celebrating his fiftieth year as a printer. Baze was a printer at Fluvanna, and from 1908 until 1910 ran The Coming West under lease at Snyder. He was connected for some time with The Hamlin Herald. He has through the years been associated with newspapers in West Texas and in New Mexico.

and in 1922 editor of the Raton News at Raton, New Mexico.

He left of that paper, W. T. Baze, took him back to Snyder in 1925 and he ran a good here for a year. In 1926 he joined The Colorado Record for a two-week job which has stretched into 21 years.

John insists he is a printer and would rather set a story in type than write it, but he now does all the writing for The Record except the society notes—and he has been known to write society stories.

Baze plays a fair game of left-handed golf, likes to take his wife fishing, umpires softball games and serves Mitchell County Democrats as county chairman.

John Baze was born at old Fort Concho, where his father, the late W. T. Baze, once served as a government hunter.

James Angel of Fort Worth arrived Tuesday to spend several days with his cousin, Robert Angel.

## Finest Fruits for Canning at Home

It's good news for all the Hamlin home canners that peaches are again on the market.

Miss Loretta Allen, the county home demonstration agent, states peaches are to can in the water bath canner and one of the best fruits for home canning.

For canning, choose peaches that are sound, firm and table ripe.

Look beyond the pink blush, if the peach has one, to see that the ground color is yellow or white—not an unripe greenish tint. A bushel of peaches yields about 18 to 24 home canned quarts.

Directions for cold packing peaches in preparation for processing in a water bath canner are given by Miss Nabors as follows (peaches packed raw hold their shape better and look prettier in the jar and on the table):

Wash peaches. Dip in boiling water, then quickly in cold water, to loosen skins. Remove skins. Halve and pit fruit. Slice if desired. To prevent darkening during preparation, drop peaches into water containing two tablespoons each of salt and vinegar per gallon. Drain and pack cold into jars or cans to one-half of top. Add boiling syrup, leaving one to two inches in container. Steam containers—pints and No. 2 tin cans, 10 minutes; quarts and No. 3 tin cans, 15 minutes. Remove from canner, repack if necessary. Seal and process in boiling water bath 15 minutes. Remove from canner, complete seals on jars if closures are not of self-sealing type. Cool jars out of a draft. Cool tin cans in cold water. Label and store in cool place.

## News Briefs From Fisher County

Production Credit Association will hold a meeting of stockholders in Sweetwater on July 22. Many Fisher County farmers are members of the PCA. . . In a consolidation election Pledger voted to consolidate with Roby, the vote being 44-0 at Roby and 14-0 at Pledger. . . Flea hoppers are being reported in cotton fields, especially in southern and eastern parts of the county. . . The Fisher County vocational school has added its 11th teacher. . . The FSA office in Roby has closed and representatives can be seen there only on Monday. Other days county farmers must go to Sweetwater. . . A Lions Club has been organized in Rotan with 40 charter members. Robert Morris is president. . . Herbert Love is new minister of the Church of Christ in Rotan, coming from the North Loop Church in El Paso. . . Fisher County banks reveal a prosperous condition with the First National of Rotan with assets and liabilities of \$2,693,596.87 and the Citizens State Bank of Roby at \$1,146,034.36.

Mrs. Walter Roe and children, Barney, Gail, Jo Ann and Dawn, of Winslow, Arizona, have been visiting her sister, Mrs. L. R. Faulkenberry, and brother, Bonnie Bingham. Mrs. Roe and children have gone on to Comanche to visit her parents, Mr. and Mrs. Dan Bingham.

Gin employees will be ready to begin repair work on the McCauley gin next week and will be ready.

## Baptist Girls To Camp Leuders

Five intermediate GA's and YWA's from the First Baptist Church went to Camp Leuders Monday to the encampment under the sponsorship of Mrs. I. R. Huchingson.

Those going are Misses Betty Jean Hines, Donna Gayle Miller, Betty Decker, Dorothy Faye Altum, Eleanor Huchingson and Mrs. Huchingson.

## Bubble Gum Not Cause Of Junior's "Tummy" Ache, Says Article

Bubble gum isn't to blame for Junior's upset stomach or for any other of his pains, except maybe aching jaws, an Associated Press article said recently, quoting the Food and Drug Administration.

The results of tests "do not warrant any conclusion that bubble gum contains toxic ingredients," the agency said.

The bubble gum tests followed reports from some areas that the children were possibly being made ill by chewing it. This the agency found incorrect. In fact it found bubble gum to be no more harmful than pure paraffin wax.

## Income Tax Revenue Above 1946 in Texas

People of Hamlin and others in this area who had dug out the old pocketbook will be interested to learn federal internal revenue collections in Texas continue to run 20 per cent above the levels recorded last year.

So reports the University of Texas

Bureau of Business Research, which says collections in May reached \$62,651,199—bettering the May, 1946, total by 20 per cent.

## Latest Edition Texas Almanac Off the Press

A record of wartime and postwar economic, political and social development in Texas is portrayed in the half million or more facts presented in the 1947-48 edition of the Texas Almanac which has just been published by the Dallas Morning News, and which is now on sale at The Herald office.

Industrial development in the period, 1940-46, inclusive, was greater than in all previous Texas history. As measured by number of employee there was a net gain of more than 104 per cent even after the closing of some of the large war plants. As measured by value of products the gain was more than 200 per cent. State and national bank assets were up 200 per cent and other data indicate a general advance of 100-200 per cent in the state's industry, commerce and finance.

Momentous in this development has been a net increase in the state's population. There has been a large shifting from rural to urban residence and vocation, with an accompanying rapid decline in farm tenancy. Big increases in average farm acreages and high degree of farm mechanization are recorded. The large industrial expansion, data, presented by the Texas Almanac show, solved an accumulative problem of 15 years of declining cotton acreage by giving employment to displaced tenants and greatly increasing the average individual income of both rural and urban population.

Features of the new Texas Almanac include complete text of the State Constitution with historical notations on all present and past amendments. The book presents an interesting account of Texas activities in World War II, revised population estimates for towns and villages. There is a complete summary of the new agricultural census and extensive information on the cattle industry, which now brings greater cash income than Texas crops, including a history on the development of ranching.

There are extensive reviews of postwar oil, gas and other mineral production, manufacturing, communication and transportation, including rail, highway, aviation and shipping. An extensive census of the State Government gives a catalog of all officials, detail of state finances, including statistics of educational support, eleemosynary institutions and public welfare, including old-age and other pensions.

The 608-page book, containing approximately 750,000 words and statistical word-equivalents, covers several thousand separate subjects, including such diversity as rainfall data, a forestry survey of East Texas, flora and fauna, religious bodies, recreational resources and state national parks and forests, libraries, penitentiary system and complete political calendar for 1948. There are also the usual revised lists including all county officials, officials of the various civic and commercial organizations, superintendents of the independent school districts, detailed election returns and revised, up-to-date articles on the 254 counties, accompanied by revised individual county maps. The volume also has the usual large folded highway and railroad maps revised to March 1, 1947.

## James I. Steed—July 47 News Briers From Haskell County

Paint Creek voters on Saturday approved 29 to 10 a \$15,000 bond issue and a tax rate not to exceed \$1.50. Proceeds of the bond issue will be used for construction, repair and equipment of school buildings.

Wheat in the Weinhart area was best in years, averaging 20 bushels per acre with over 100 cars shipped. Plans are being made for a \$50,000 city-owned sewer system for Rochester, with 200 prospective users already signed up. Telephone lines are also to be moved from the streets to the alleys. Haskell National Bank has bought assets and properties of the F. & M. State Bank of that city, with business of both banks to be conducted at location of the former. Total assets of the two banks are \$3,761,076.27 with the deposits standing at \$3,603,850.04. A. C. Peterson is president of the combined bank and all employees of the F. & M. Bank were retained by the new institution. A. M. Turner, president of the F. & M. Bank will remain in an executive capacity. (Turner is known by many Hamlin area folks as he formerly worked at the old Bank of McCauley, where he started out sweeping floors and by cleaning spittoons. His wife, the former Maxine Tate, was visiting the Ezell family here when he met, wooed and married her in 1920.)

Rochester Presbyterians and Methodists for the third consecutive year, are planning a union revival. Rochester receives its water from deep wells and anticipates no difficulties with its water supply. A. F. Thurman of Electra former minister of Haskell Church of Christ and mayor of that city will return there on July 20 to open a 12-day revival service. A softball tournament will open in Haskell on July 22. A-H Club leaders are planning for a rally and style show to begin in Haskell on Saturday, July 19. A revival meeting opened at Lindsey Chapel on Friday, July 11. Haskell singing convention met at the Plainview Baptist Church on Sunday. Haskell County veterans will be glad to learn that a VA contact representative will visit Haskell on the afternoon of each first, third and fifth Thursdays on each month.

### At Kelly Field.

Pvt. Archie B. Liles who entered the Army Air Forces in June is now in training at Kelly Field, San Antonio. Liles enlisted when the special caravan was here late last month.

## Cars in 6 Months Scheduled By K-F

Output of 90,000 automobiles by Kaiser-Frazer Corporation during the last half of 1947—barring basic material supply shortages—was forecast this week by Edgar F. Kaiser, vice president and general manager, in mid-year resume of the corporation's production progress to A. G. (Jimmy) Irwin, of Irwin Motor Company, local dealer.

Mr. Kaiser, who announced that the K-F produced a new monthly high of 12,039 cars in June, said that the company earned a substantial profit in the quarter ended June 30. Sales approximated \$22,000,000 as compared with \$11,700,000 for the entire year of 1946, he said.

The company's June output which represented a 16 per cent increase over the May figure of 10,387, was

Production of the Kaiser, Frazer and Frazer Manhattan automobiles totaled 49,203 in the first six months of this year, Mr. Kaiser said. Scheduling of 90,000 units for the balance of the year has been made possible by increased supplies of the raw materials and engines obtained through subsidiary companies which have been acquired by K-F, he explained.

He reported that the company this month completed stocking of service parts among its 146 distribution centers throughout the United States to insure prompt servicing of the more than 56,000 Kaisers, Frazers and Manhattans which are now in the hands of private owners.

### To Colorado.

Mr. and Mrs. Frank Waggoner and son, Jerry, are vacationing in Colorado.

# NOTICE

We will close Saturday Night, August 2nd for repairs and a rest. We will be open for business on Monday, August 18th.

Come in!

retire as soon as Mr. Hennington assumes his new duties. Mrs. Rector has been postmaster for the past 26 years and has farming interests in this community. She will continue to live in her home in town of McCauley.

The George Darden family spent last week in the home of his parents, Mr. and Mrs. M. A. Darden at Girard.

Mr. and Mrs. Luther Maberry and daughters have returned to their home after several days visit with relatives in Arlington.

Speaking of revival meetings: Don't you remember way back when the old "brush arbor" meetings brought folks for miles and miles. How the mas and pas fetched their bed quilts along for the kids to bed down on during the long winded sermons back in the horse and buggy days? Yes, folks got religion those days—there were no "high pitched solos" that folks couldn't savvy, no continual preaching on sending money to China, and folks didn't attend the churches to see what the other fellow was wearing, a man in overalls, the women in calico was just as welcome as the folks in stiff-shirts and gingham gowns and the only disturbance was maybe a yell from a cowboy in the far distance of a mournful howl from a coyote wolf on prairie. Anyway, folks, got religion and stayed with it. Nowadays, too many folks go to church on Sunday and study and scheme how to beat their fellow man in a horse trade on Monday. This Pot-Shot doesn't pertain to all folks but by far too many.

James York of Clyde who was killed July 9 when his car overturned near Eastland was a nephew by marriage of Mrs. B. F. Short of McCauley. Burial was in the Cedar Hill Cemetery near Abilene. Funeral services were held at the University Baptist Church in Abilene on July 11. Mr. and Mrs. B. F. Short of McCauley attended. Rev. C. A. Powell, former pastor of the University Baptist Church where

tal last week, was seriously ill at pays to train your pony.

Mr. and Mrs. W. H. Pickron of

Gin employees will be ready to be- and making mountains out of mole- learn to be idle, wandering about gin repair work on the McCauley hills will take...

Mrs. Ted Abbott is still seriously ill at this writing in a Stamford hospital.

Mrs. Nute Stevens, formerly Leona Maberry is much improved after undergoing a major operation in Abilene.

An old time square dance with the Sweetwater team and the other Hamlin teams and perhaps a little old time round dancing would be a good show for the grand opening of the new gymnasium at McCauley in the near future. If no "severe" objections—same could be sponsored by the Fisher County veterans of Foreign Wars and promoted by the Pot-Shot man and the contractor. How is your "pulse" Mr. Citizen and school board?

Fisher County is getting ready for a crop boom this fall, from all reports the farmers will make the "dough" if insects leave them alone. When you smell bacon frying and hear dollars jingling, you know that the country is tip-top.

Dirle Maberry has returned to her home after three weeks visit with friends and relatives in Lamesa.

Why pay war time prices for real-estate when you can own your home in McCauley worth the money. Good roads, good schools and in the center of Fisher County's productive farm lands, a ideal place to recline and let the rest of the world go by. See this scribe if interested.

Mr. McCurdy, the Compress manager at Hamlin is now a big cotton farmer. See Mr. Mac if you are interested in a cotton picking job that will last.

"A Pot-Shot"—Rev. C. E. Dick pastor of the McCauley Baptist Church for the past ten years who, has resigned as pastor effective the first of September. Plans to make his home on the Plains near Crosbytown. He will do evangelistic work in the summer we are informed. We have our own ideas as to the qualifications of what a new pastor should be and even though the scribe isn't on the pulpit committee, we kinda like to pop-off, and suggest that before a pastor is hired that all the members have a say as to who will pastor the flock. "Stem rolling tactics" that too often occur even in church set-ups doesn't always prove to be satisfactory. Our best wishes to Rev. Dick in his new field. Yep, we know that a lot of folks would like to stuff a bale of cotton down the ole' scribes throat for frankly writing his opinion on topics of the day, but we find that 95 per cent of the folks say pour it on George even if it takes the hide. "Pussy-footing" about vital subjects has too often up-set peace, harmony and the pursuit of happiness. There will be plenty of hell, fire and damnation when Gabrel "toots" his horn.

## Stamford PCA to Hold Annual Meet This Next Week

A large attendance from among the 1,609 members of the Stamford Production Credit Association is expected at the thirteenth annual stockholders meeting to be held in Stamford on July 25, beginning at 10:00 a. m. As in the past, registration will begin at 10:00 a. m. at the bunkhouse on the Texas Cowboy Reunion grounds.

Following a chuck wagon dinner, 11:30 to 1:00 o'clock, a brief business session will be held in the grandstand of the arena, also on the Texas Cowboy Reunion grounds. In this business session will be heard reports from the board of directors and the secretary-treasurer, and a discussion of "sound credit." Also one director is to be elected.

The next event on the program will be a matched calf roping contest between Sammy Baugh of Rotan and Fred Albright of Benjamin, both nationally known calf ropers. Baugh is a member of the association, having holdings in Stonewall County. This feature, beginning at 2:30 p. m. is open to the general public. A closing feature a large number of gifts will be awarded to PCA members and their wives.

"SERVING THE HEART OF THIS FOUR-COUNTY AREA"

FORTY-SECOND YEAR—NO. 37

HAMLIN, JONES COUNTY TEXAS, FRIDAY, JULY 18, 1947

SECTION II—Four Pages

## Formal Opening of Jay's Saturday

### It's Still Okay To Use Your Thumb--Provided

Contrary to inaccurate reports, the new uniform traffic code does not prohibit hitchhiking, George Clarke, managing director of the Texas Safety Association, said this week in Austin.

The code, which goes into effect September 5, was supported by the Texas Safety Association and 58 state-wide cooperating groups in the recent session of the Legislature as a safety measure.

The two-line sub-section of the traffic code pertaining to hitchhikers reads:

"No person shall stand in a roadway for the purpose of soliciting a ride from the driver of any vehicle."

A roadway is defined in the bill as "that portion of the highway improved, designed or ordinarily used for vehicular travel."

The bill defines a highway as "the entire width between the boundary lines of every way publicly maintained when any part thereof is open to the use of the public for purposes of vehicular travel."

Clarke emphasized that the bill

does not forbid any person to stand on the shoulder of the road for the purpose of soliciting a ride from a driver.

He said that it is a prevalent practice in the state for hitchhikers to stand on the concrete or corrugated surface of the road, and that this action constitutes a definite hazard to the hitchhiker as well as to traffic.

Penalties for violations of the act range from \$1 to \$200.

### Postage Rates Are Made Permanent

Postmaster Perry Sparks has recently been notified that the present three-cent letter rate and all other postal rates have been made permanent by a recent act of Congress.

The notice follows:

"Under House point resolution of 80th Congress approved by the President on June 30, 1947, the three-cent letter rate and all other postage rates and fees will continue thereafter on permanent basis."

These rates have been continued each year, by renewal, since the so called three-cent letter rate went into effect in 1932, it was stated.

A Georgia woman, age 96 says she never saw a auto. Perhaps that explains her age.

### Free Barbecue Saturday Main Part of Program

### R. E. Dickson to Speak to Group

Jay Implement Company, International Harvester dealers for this territory, will formally open their modern new building Saturday. The attractive, large, white building, marked by a striking red pylon at the entrance, is called a "Base of Operations" by IHC and is completely equipped to care for most needs of the modern, mechanized farmer.

A free barbecue lunch at 12:00 o'clock noon with all the trimmings is being prepared by the genial owner, Eddie Jay, one of Hamlin's most successful young business men. In making his announcement, Mr. Jay said: "I want it understood that every farmer and rancher, every man woman and boy in Hamlin area who wants to come is cordially invited to be there. We'll have enough barbecue, etc. for everyone, and we want them to come and look over our new building. We're really proud of it."

R. E. Dickson, superintendent of the Texas Agricultural Experiment Station at Spur, will be the guest speaker for the occasion. Mr. Dickson will make a short talk on matters that are of vital interest to farmers and ranchers of this area.

Starting with the noon barbecue,

Mr. Jay has planned a program that will be over some time after 2:00 o'clock, and the rest of the time visitors will be welcome to look over the building and its facilities.

Entertainment will be provided by "Moon" Mullins' string band of Abilene. Regular radio performers, they will make their regular broadcast over KXOX from 1:00 to 1:30 p. m. by remote control from the implement company building. As far as is known this is the first broadcast to be made here.

Mr. Jay said this week that plans call for the huge shop to be cleared in order that visitors may be served in the shade.

This new building, which has been occupied for several months, is large and airy. The repair shop is without a doubt one of the best equipped in West Texas, according to IHC officials. Modern tools, including lathes, boring bars, grinding machines and hundreds of hand tools, make it a "mechanic's paradise."

Lovers of good machinery and well equipped shops, regardless of their trade, will enjoy looking over this department. Wayne Hemphill is shop foreman, and his assistants

are Louie Jones, Albert Hill and Jim Ware.

Bill Shira is parts department foreman and his assistant is Garland Preston.

All employees of the company will be on hand for the gala opening and will enjoy showing guests around. Mr. Jay anticipates several thousand guests during the day.

Chicago offices of International Harvester will be represented here by several high officials. Those expected to be here are: A. J. Peterson, manager, general lines sales, Chicago; B. M. Kaiser, manager, motor truck sales, Chicago; A. M. Buzzard, assistant manager, truck sales, Chicago; R. D. Kingdon, manager, general line sales for Southwestern District; J. W. Simpson, manager of new building program, general office, Chicago.

A Cub in Size...  
but a BEAR for Work!

and Now—

INTERNATIONAL HARVESTER PRESENTS

## THE Farmall Cub!

- For all operations on farms of 40 crop acres or less—and truck gardens.
- For special operations on truck farms.
- For large farms that need an extra tractor.

That's the Farmall Cub, the first tractor in history that's built right and priced right for a great new group of tractor owners.

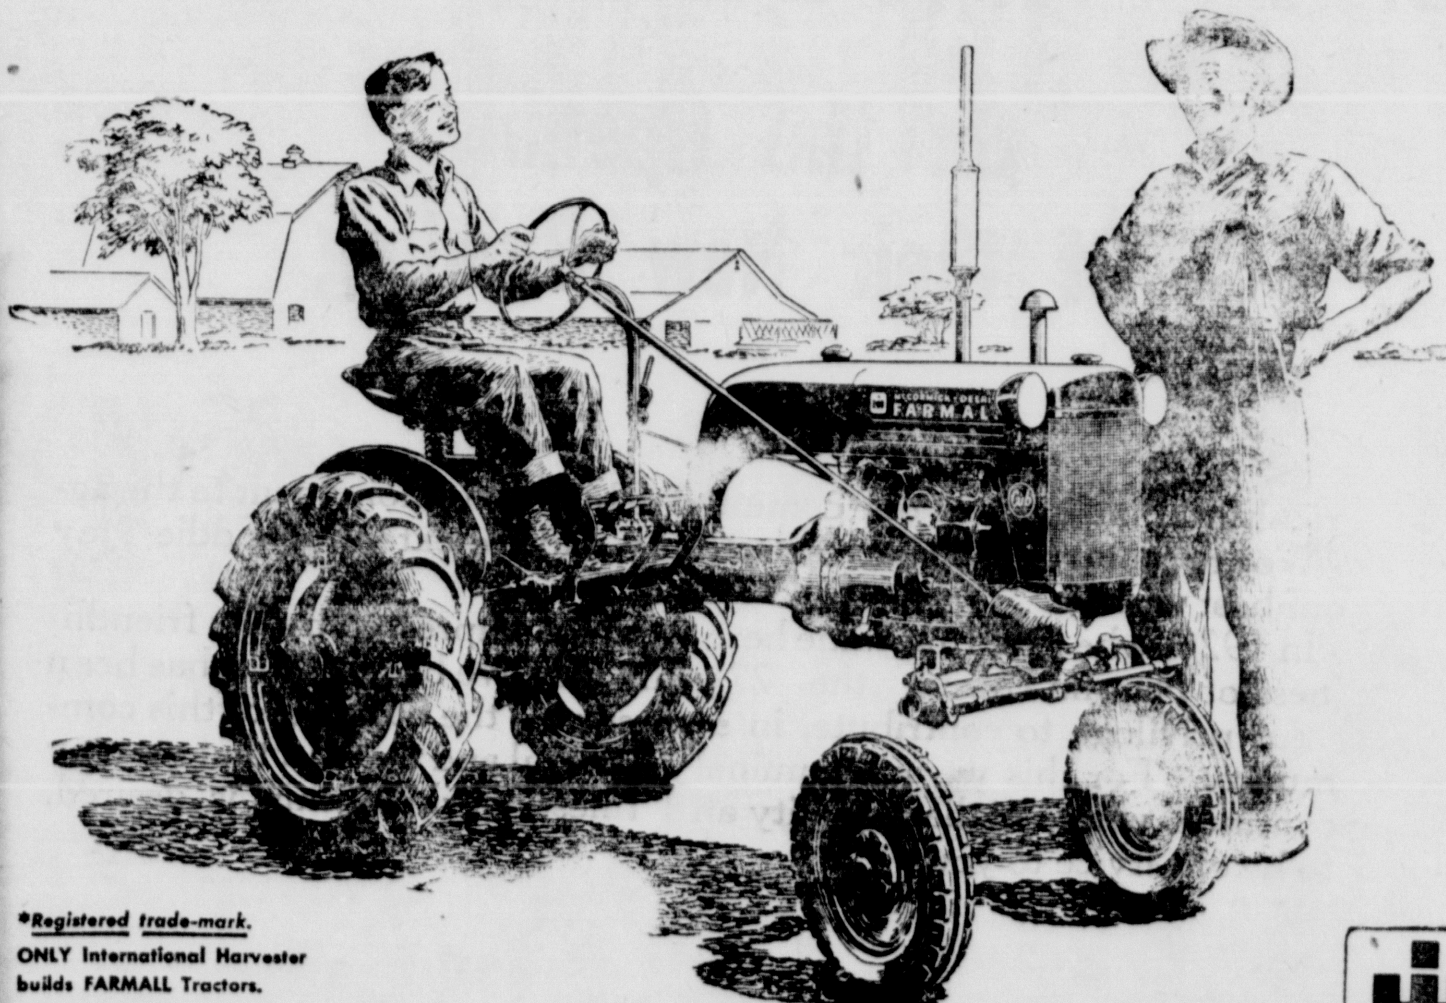

The Cub is the newest member of the famous FARMALL FAMILY. It brings the advantages of the FARMALL SYSTEM OF FARMING to the small, family farm.

It's a Cub in size, but "a BEAR for work." You get big-

Farmall quality and design, plus scaled-down, small-tractor economy. And there is a full line of matched, quick-change, easy-to-control implements.

The smooth-running 4-cylinder engine develops approximately 9 1/4 h.p. on the belt. It uses considerably less than a gallon of gasoline an hour. There's a comfortable, roomy seat... ample crop clearance under the chassis... and "Culti-Vision" to give a clear, unobstructed view of your work.

Fit the Cub into your farming operations. We'll have one on hand soon, so you can get it in the soon and drive it. You'll find it handles as easily as your car.

\*Registered trade-mark.  
ONLY International Harvester  
builds FARMALL Tractors.

## HOW TO USE THE TELEPHONE SKILLFULLY

Even the simplest things—and telephoning is one of them—are easier and more satisfactory for the person who knows the best way to do them and then DOES them that way.

If you know the right answers to these four questions about using the telephone, you'll have a key to better telephone service.

Question: What is the best way to answer the telephone?

Answer: It's usually best to identify yourself at once. "Mr. Hopkins speaking" helps start things off right—especially if the caller may not recognize your voice. It's much better than "Hello."

Question: Can the person I'm calling hear me better if I talk loudly?

Answer: It's better to speak in a normal voice—clearly and distinctly—with your lips about a half inch from the transmitter.

Question: Can I get the operator's attention faster by "jiggling" the receiver hook up and down rapidly?

Answer: No! When you move the hook too fast, it often brings in no signal at all. Move it slowly for better results.

Question: When I'm talking on a party line, how do I know if another party wants to call?

Answer: You may hear him lift the receiver. If so, the neighborly thing to do is finish your conversation as soon as convenient so he can make his call.

### Singspiration Each Sunday at First Baptist

Lovers of good gospel singing are invited to attend the "Singspiration" at the First Baptist Church Sunday evening in the church basement, following the regular preaching service, music and educational director, Bonnie Smith, announced this week.

Mr. Smith and Miss Wanda Karnes of Hardin-Simmons University, Abilene, will be in charge of this program, which will include special numbers, group singing and choruses. Special emphasis will be placed on the young people, but all ages are invited. Refreshments will be served.

### Leader Highly Favors Soil Conservation Plans

"I would like to see more work done in getting this land of ours back into a good state of productivity," stated C. E. Lantrip, pictured above.

The Jones County farmer has served as a supervisor of the California Creek Soil Conservation District since 1943, having been re-elected to the position in 1946, for a five year tenure. During this period he has served as secretary for the Board of Supervisors. Lantrip farms three miles northeast of Anson. Two of his farms have been under agreement with the district four years.

When Lantrip placed his farms under agreement with the California Creek Soil Conservation District he was aware of the benefits that could be derived from conservation farming and good range management. Under this program he has improved his land by terracing, contour cultivation, stubble mulching, crop rotation as well as improved his pastures by good management. He also built his first terraces with regular farm equipment and through this use has found that wide terraces are more practical and profitable. He practices the rotation of crops in such a manner that the same row crop will not be planted on the same land more than two years in succession. In 1946 a pond was constructed on his 100 acre farm, being planned and staked by SCS technicians and partially paid for by use of the PMA program.

"This next fall I plan to plant cover crops on some of my sandy land southeast of Anson. This farm is in need of soil improvement and through the use of such adapted cover crops such as vetch and rye, I believe I can improve it by reducing wind erosion and increasing its fertility," said Mr. Lantrip.

Mr. and Mrs. Dewey Mallonee and son, Leon, of Wichita Falls visited her mother, Mrs. Ada Smith, and his sister, Mr. and Mrs. R. E. McCormick, here during the week-end.

Miss Mary Margaret Stephens of Lubbock is here for a visit with her grandparents, Mr. and Mrs. J. H. Foster.

Robbie Sparks of Mathis is here as the guest of her aunt, Mrs. S. D. McMahon.

### ALL RIGHT,

maybe Bert the Barber doesn't know a kilowatt from a cable, but that does not stop him from being one of our bosses, just the same.

Surprised? Didn't you know your electric light and power company is owned by Bert, and a lot of people like him—and like you, too?

People from all walks of life—doctors and industrial workers, teachers and farmers, mechanics and milkmen—have put some of their savings into our company. Those people are direct owners.

But there are countless indirect owners, too—many (like Bert the Barber) who haven't an idea that they have a stake in the electric industry. Those are the people who have savings accounts or life insurance policies. Nowadays, that means practically everybody!

Here's how it works: When banks and insurance companies accept your money, they must invest it wisely—and soundly. And because business-managed electric companies have a long record of faithful service, much of this money is invested in their securities.

So you, too—like Bert the Barber—are very likely to be one of our bosses.

HOWDY, BOSS!

**West Texas Utilities  
Company**

## 12 Years REA Progress Observed On July 25

Commemorating 12 years of progress in the electrification of rural areas, the week of July 13-19 has been proclaimed by Governor Beauford Jester as Rural Electrification Week in Texas.

A copy of Governor Jester's proclamation was received this week by Lon R. Adams, superintendent of the Midwest Electric Cooperative, which serves over 1,800 rural families in this area with electric lights and power.

The governor's proclamation, issued in Austin, points out that the percentage of rural homes in Texas having electric service has increased from 23 per cent to 55 per cent during the past 12 years.

"More than 160,000 farm and ranch families of Texas may enjoy the benefits of electric lights and power through cooperatives which they themselves own and operate," the proclamation stated.

"Each of the 75 rural electric cooperatives operating in Texas is a free and independent, taxpaying business enterprise, owned and controlled by the farmers who receive service along its lines," the governor pointed out.

"The money to build rural power lines is loaned, not given, to the cooperatives by the federal government and is being repaid with interest on or ahead of schedule, thus representing no cost to the taxpayer. Not a single electric cooperative in Texas is delinquent in the repayment of its loan to the government, while more than a million dollars has been repaid in advance of due date.

Electricity has brought about a wholesome revolution in farm methods, production and living standards; has lightened the drudgery of farm tasks and increased farm output and profits; has been instrumental in keeping young people on the land; and has promoted the general welfare not only of rural people but of urban residents as well, whose prosperity and well-being depend upon a sound and prosperous agriculture," the proclamation stated.

Rural electric cooperatives of Texas will hold their annual statewide meeting in August July 18 and 19. The Midwest Electric Cooperative will be represented at the state meeting.

## Farm Funds May Be Restored For Soil Conservation

Farmers and other interested persons were assured this week by Senator Bushfield, Republican of South Dakota, that a Senate Appropriations Subcommittee in Washington has reached a preliminary agreement to restore to the farm appropriation bill a full \$300,000,000 fund for farm benefit payments and continue the program in 1948.

This, Jones Countians learn, is contrary to House actions on the measure, which cut the "conservation and use payment" to \$150,000,000 of 1947 and directed that no benefit payments be planned for the 1948 crop year.

Bushfield said the decision was "reached unanimously" by the subcommittee—which has not yet completed work on the annual farm supply bill.

The senator adds that payments for the 1948 program probably would be held to approximately \$150,000,000.

## War II Service Navy Vets May Get Medals for

Navy Recruiting Station in Abilene has been authorized to issue American Defense Service medals and World War II Victory medals to area Navy veterans beginning August 1. Chief H. F. Lindsey announced while in Hamlin Monday and Tuesday.

A news release from Washington, D. C., states that Army depots will be prepared to take care of applications by August 15, and Army applicants should wait until that date before applying unless advised otherwise by local announcement.

Veterans who were on active duty September 8, 1939, to and including December 7, 1941, are entitled to the American Defense medal. The World War II Victory medal will be awarded to ex-servicemen who were on active duty from December 8, 1941, to and including December 31, 1946.

Former Navy enlisted personnel who are entitled to either medal are requested to report to either of the above stations and present their original discharge papers and their notices of separation, Chief Lindsey said.
